WIRE & REMOTES Wirekits / Universal remotes

Protect your investment! AK & G Series Premium "Hook Up's" are the Massive Audio solution to eliminating the weak link. Massive Audio wiring kits greatly simplify the process of installing your amplifier by providing everything you need right in one kit. Unlike most manufacturers we supply all the necessary wire, fuses and terminals in one package. All Massive wire is comprised of Oxygen Free Pure Copper Cable (No Mixed Metal or CCA) and the signal cables use custom molded RCA plugs insuring the highest conductivity. The AK8 and AK 4 supply all necessary power wiring accessories for competition quality installation of a single amplifier; including a pre-wired waterproof fuse holder and remote turn-on wire.

- 3 Ft Heat Treated Flexible Ground Cable With Protective Mesh
- 17 Ft OFC Directional 2-CH RCA Signal Cables
- Nickel Plated Water Proof Inline Fuse Holder
- Twisted Wire For Maximum Strand Count
- 100% Pure Oxygen Free (CEA Certified)

- 3 Ft Flexible Ground Cable
- Butt Connectors
- Cable Ties

Complete your hook-up with an amplifier gain remote. The Massive UR-1 Gain Remote Knob will allow you to control your woofer output channel from the drivers chair for when you need that quick mute or simply want to reduce your low end output without fussing with your EQ or head units volume controls. Small Dash Mount Single Knob System with 0 - 12dB Sub Amp Gain Control.

- UBT-1** OPTIONAL SATA BLUETOOTH CONNECTOR FOR NANO-BLU AMPLIFIERS & B-LYNX
- LW-1** OPTIONAL SPEAKER LINE TO MALE RCA FOR HI LEVEL INPUT ON BLADE, EDGE, NANO-BLU AMPLIFIERS
- UR-1** OPTIONAL UNIVERSAL REMOTE GAIN CONTROL FOR COMPATIBLE AMPLIFIERS
