

The Morning Machine MM730

step by step

QUICK START GUIDE

step
01

Connect the Morning Machine to Wi-Fi > install the Drink Morning app > on the app, add a new machine and follow the instructions.

step
02

Register your machine.

[REGISTER HERE](#)

step
03

Perform an OTA (firmware) update by holding both buttons > Settings > OTA Update.

step
04

Hold the  Back button to purge (flush) the machine twice. This will remove air in the system before brewing.

step
05

*Insert filter into the water tank. Hold the  Confirm button to flush two full water tanks using the hot water dispenser.

step
06

*On the machine, perform a pump calibration. Press both buttons > Settings > Calibration > Pump Pressure.

* Perform steps 05 and 06 if a water filter is installed in the tank.
