

 <p><b>CUE REFILLABLE POD</b></p> <p><b>USER MANUAL</b></p>	<b>IN THE BOX</b>	<b>HOW TO REFILL</b>	 <p>The Cue Pod was designed in the UK. It is made in China.</p> <p>Imported by <b>Cue Vapor Limited</b> Hersham Place Technology Park, Molesey Road, Walton On Thames, Surrey, KT12 4RZ United Kingdom +44-7833097142 www.cue-vapor.com</p>
	<p><b>CONTENTS</b> 4 x Cue Pods</p>  <p><b>INSERTING THE POD</b></p> 	<p><b>LIQUID FILLINGS INSTRUCTIONS</b></p> <ol style="list-style-type: none"> <li>Unplug the top cover of the pod (the black part) by pushing away from you on the long side of the top of the pod (the black part) and locate the e-liquid filling port which is a blue circular membrane.</li> <li>Press the tip of your e-liquid bottle through the blue membrane and squeeze your e-liquid bottle until the pod is full (leaving some space for air). Remove the tip of your e-liquid bottle when done.</li> <li>After you have filled the pod, firmly press down the top cover. Now wait 2-3 minutes before you insert the Cue Refillable Pod into your Cue 2.0 Vape Device. This completes the filling process and your pod is ready for use.</li> <li>You can see how much e-liquid is left in your Cue Refillable Pod when it is time to refill it. If while vaping you have little or no vapor production, combined with a deterioration of taste, then it is time to refill the pod.</li> <li>When your pod is empty you need to refill it. You can refill your Cue Refillable Pod 3-5 times. To enjoy the best possible vaping experience, we recommend that you do not refill your pod with a different e-liquid.</li> </ol>	

<b>WHEN TO CHANGE YOUR POD</b>	<b>CLEANING AND MAINTENANCE</b>	<b>CUE POD DISPOSAL</b>	<b>IMPORTANT SAFETY INFORMATION</b>
 <p>If your Cue vape device stops producing vapour and the pod is not yet empty, check that your device is fully charged.</p> <p><b>TIPS</b></p> <ul style="list-style-type: none"> <li>For the best experience when using your Cue vape device make sure it is fully charged before use.</li> <li>During each inhalation all 3 LED lights will come on and then go off. When you stop inhaling they will come back on indicating how much your device is charged. This allows you to track the charge of your device as you use it.</li> <li>Only use original Cue Pods with your Cue vape device.</li> </ul>	<p>The Pod can be cleaned using a soft dry cloth or tissue. Care should be taken to avoid getting the pod wet.</p> <p>Occasionally you may insert a pod and notice that no vapor is produced when you inhale. If this happens all 3 LED lights blink red. In this case please first clean the two connection points on the pod with a swab or tissue making sure they are dry and not covered by anything. Also clean the spring loaded connection points in the device with a swab or tissue making sure they are dry and clean. When doing this please make sure you press down on the springs 2-3 times.</p> <p>Now firmly re-insert the pod again and your vaping experience should be back to normal.</p> 	<p>Store your pods in a dry location away from sunlight. Always store them in a place where the temperature is above 4°C and below 40°C</p> <p>Electrical and electronic goods and batteries should not be disposed of as part of your regular household waste, but should be separately collected for recovery and recycling in accordance with your national or local rules. You can contribute to positive recycling and receive free pods in return if you join the CUE Recycling Club.
