

## Installation Instruction

### A. Safety Notes

Please read the relevant instruction and safety notes carefully before use:

1. All electrical connections must be in accordance with the local code, ordinance, or National electrical code. If you are not unfamiliar with methods of installing electrical wiring, secure the services of the qualified licensed electrician.
2. Before starting the installation, disconnect the power by turning off the circuit breaker, or by removing the fuse at the fuse box.
3. Avoid damaging the main cord by bending it and letting it touch sharp edges.
4. If the power cord is damaged, only electrician is authorized to replace it, because special tools are required.
5. Never attempt to repair the lamp by yourself if you are not specialist. For repair and maintenance, please contact a suitable electrician.

### B. Assembling

1. Open the lamp shade.
2. Drill holes on ceiling or wall if it is necessary.
3. Then attach the wall anchors insert the holes. Secure the mounting base with screws.
4. Secure the lamp base to the mount base with screws.
5. Connect the power cables.
