

# *Advanced Chemistry in Creation, 2<sup>nd</sup> Edition*

## Table of Contents

<b>MODULE #1: Units, Chemical Equations, and Stoichiometry Revisited .....</b>	<b>1</b>
Introduction .....	1
Units Revisited .....	1
A New Look at Chemical Equations .....	4
A New Look At Hess's Law .....	7
Stoichiometry and Limiting Reactants .....	14
Experiment 1.1: The Strength of Household Ammonia .....	20
Stoichiometry, Percent Yield, and Multiple Reactions .....	22
<b>MODULE #2: The Atom Revisited .....</b>	<b>35</b>
Introduction .....	35
The Atom – What a Bohr! .....	35
Experiment 2.1: Colors in Chemistry .....	36
A Detailed Look at the Bohr Model .....	37
The Bohr Model and Atomic Spectra .....	43
The Size of an Atom .....	48
Moving From the Bohr Model to the Quantum Mechanical Model .....	50
Determining Quantum Numbers for Individual Electrons .....	54
<b>MODULE #3: The Electronic Structure of Molecules .....</b>	<b>67</b>
Introduction .....	67
How Atoms Share Electrons .....	68
Hybrid Orbitals .....	68
Molecular Orbitals - Part 1 .....	73
Molecular Orbitals Part 2: The Rule-Breakers .....	81
Explanation of Experiment 2.1 Plus Another Experiment .....	87
Experiment 3.1: The Effect of Solvent on the Color of a Substance .....	88
<b>MODULE #4: Intermolecular Forces and the Phases of Matter .....</b>	<b>95</b>
Introduction .....	95
Experiment 4.1: The Kinetic Theory of Matter .....	95
Applying the Kinetic Theory of Matter to Phase Changes .....	96
Experiment 4.2: Separating a Mixture Using Sublimation .....	100
The Different Types of Van Der Waals Forces .....	101
Cohesive Forces, Adhesive Forces, and Surface Tension .....	109
Phase Diagrams .....	110
Crystals and Unit Cells .....	114
Experiment 4.3: Identifying Unit Cells .....	116
Metallic Crystals .....	117
Determining Density from Crystal Structure .....	120
Ionic Crystals .....	122

<b>MODULE #5: Solutions and Colloids.....</b>	<b>129</b>
Introduction .....	129
A Little Bit of Review .....	129
Relating Units of Concentration.....	132
Solubility, van der Waals Forces, and Entropy .....	133
Temperature and Solubility .....	138
Experiment 5.1: A Solubility Curve.....	138
The Effect of a Solute on a Solvent's Phase Diagram .....	144
Separating Solute From Solvent in a Solution .....	146
Experiment 5.2: A Simple Distillation .....	147
Experiment 5.3: Paper Chromatography .....	149
Colloids .....	151
Experiment 5.4: Forming Colloidal Particles with Soap.....	153
<b>MODULE #6: Solutions and Equilibrium.....</b>	<b>161</b>
Introduction .....	161
A Little Bit of Review .....	161
The Equilibrium Constant and Gibbs Free Energy .....	163
Solubility Equilibria .....	167
The Common Ion Effect.....	172
Experiment 6.1: The Common Ion Effect .....	172
Precipitation from Solution .....	179
Experiment 6.2: Precipitation.....	179
Experiment 6.3: Making Your Own Precipitate.....	182
<b>MODULE #7: Acid/Base Equilibria .....</b>	<b>195</b>
Introduction .....	195
A Little Bit of Review .....	195
The Real Meaning Behind the pH Scale .....	198
Calculating the pH of a Solution of an Acid or Base .....	201
Experiment 7.1: Calculating Concentration from pH .....	206
Amphiprotic Substances and Their Behavior.....	209
Diprotic and Triprotic Acids .....	211
Alternate Definitions of Acids and Bases .....	216
<b>MODULE #8: More on Equilibrium .....</b>	<b>227</b>
Introduction .....	227
Buffer Solutions .....	227
Experiment 8.1: The Bicarbonate Buffer .....	227
The pH of a Buffer .....	232
The Common Ion Effect and pH .....	239
The Technique of Successive Approximations.....	242
Other Equilibrium Situations .....	246

**MODULE #9: Electrochemistry – Part 1 ..... 263**

Introduction .....	263
A Little Bit of Review .....	263
Analyzing Redox Reactions .....	267
Experiment 9.1: A Redox Reaction between Copper and Zinc .....	267
Galvanic Cells .....	270
Experiment 9.2: Making Your Own Galvanic Cell.....	278
The Nernst Equation.....	280
Electrolytic Cells.....	282
Experiment 9.3: The Electrolysis of Copper Sulfate.....	282
Faraday's Law of Electrolysis.....	288

**MODULE #10: Electrochemistry – Part 2 ..... 301**

Introduction .....	301
Balancing Redox Reactions – The Half-Reaction Method .....	301
Balancing Redox Reactions - The Change in Oxidation Number Method .....	309
The Strengths of Oxidizing and Reducing Agents.....	311
Experiment 10.1: Predicting Redox Reactions .....	317
Relating Redox Potential to $\Delta G$ and the Equilibrium Constant.....	318
Corrosion.....	321

**MODULE #11: Chemical Kinetics..... 331**

Introduction .....	331
A Little Bit of Review .....	331
Experiment 11.1: The Rate of an Iodine Clock Reaction .....	333
Another Way to Look at The Kinetics of a Chemical Reaction.....	338
First-Order Chemical Reactions.....	340
Second-Order Reactions.....	343
The Collision Theory of Chemical Kinetics .....	344
Reaction Mechanisms and Reaction Rates.....	348

**MODULE #12: An Introduction to Organic Chemistry..... 361**

Introduction .....	361
Saturated Hydrocarbons .....	361
Naming Saturated Hydrocarbons .....	368
Alkenes and Alkynes.....	373
Aromatic Compounds.....	375
Petroleum.....	378
Polymers.....	380
Experiment 12.1: Investigating the Properties of Polyethylene.....	380
Experiment 12.2: Making Slime .....	381
Experiment 12.3: Cross-Linking a Polymer.....	382

<b>MODULE #13: Functional Groups in Organic Chemistry .....</b>	<b>389</b>
Introduction .....	389
Alcohols .....	390
Experiment 13.1: Yeast and the Fermentation Process .....	391
Ethers.....	394
Aldehydes and Ketones .....	397
Carboxylic Acids.....	398
Esters .....	400
Amino Acids and Proteins.....	403
Carbohydrates .....	407
Experiment 13.2: The Hydrolysis of Sucrose .....	410
Summing Up Organic and Biochemistry .....	412
<b>MODULE #14: Nuclear Chemistry .....</b>	<b>417</b>
Introduction .....	417
Binding Energy .....	417
The Nuclear Force .....	421
The Stability of a Nucleus .....	422
Radioactivity .....	423
Other Forms of Radioactivity.....	428
The Rate of Radioactive Decay.....	429
The Dangers of Radioactivity .....	430
Radiometric Dating .....	432
Varying Radioactive Half-Lives .....	435
Other uses of Radioactivity and Ionizing Radiation .....	438
Nuclear Reactions .....	440
Using Nuclear Reactions to Make Energy .....	444
<b>MODULE #15: Review - Part 1.....</b>	<b>451</b>
Introduction .....	451
Review Questions and Problems.....	451
<b>MODULE #16: Review - Part 2.....</b>	<b>461</b>
Introduction .....	461
More Review Questions and Problems .....	461
Summing It All Up.....	469
<b>GLOSSARY .....</b>	<b>471</b>
<b>APPENDICES .....</b>	<b>485</b>
<b>INDEX .....</b>	<b>521</b>
