Tournament preparation

Player equipment

All players are expected to arrive at the tournament fully equipped to play their games. This includes:

● Two copies of their army list (printed, not hand-written)
● All miniatures for their army
● Dice & tape measure
● Pen & paper
● Mesbg Rules Manual
● All supplements and published materials containing the rules for their army
● Erratas & FAQs

Painting & Modelling Standards

All models used within the event must be fully painted and based. Models should also follow the WYSIWYG system, which requires each specific model used to be equipped displaying the options and war gear purchased in the army list. For example we would expect to see a Moria Goblin modelled with a spear if the army list states a Moria Goblin is wielding a Spear.

The Draw

Prior to the event, After 15th January a draw will be announced for round 1. Subsequent rounds will be Swiss ranking. Efforts will be made to ensure you do not play the same person twice between round 1 – 5. Round 6 paring may have you rematched with a previous opponent.

Game Duration

Each round will have an allotted game time of 2 hours 15 minutes.

Deployment time limit

In rounds which use scenarios with a Deployment phase, players will have the first 15 minutes of the game allocated to Deployment. As soon as Deployment is completed, players can begin playing the game.
In scenarios which do not use a Deployment phase, no time will be allocated for Deployment, and the full time allowance for the round will be used for gameplay.
If players have not completed Deployment within the allocated time, they may be penalised for Slow Play violations.

Rules Queries and Decisions

Referees will be using the "IGE WTC 2023 - Referee's Handbook" to adjudicate the event.
Under pressure and time constraints, it can get very frustrating for players to look up rules and clarify situations. Please understand that knowledge of game dynamics, your own army and the scenario been played is your responsibility. Referees are there to adjudicate on aspects of the game that can not be found within the rule book or associated publications.
The referee's decision is final.

For the purpose of this event the English versions of all publications shall be used and as such all TO decisions will be based on the rules as written in English. Making sure that all attendees are playing from the same version of the game ensures that there are no discrepancies or wording changes between the publications in use, usually due to translation issues. Any rules updates, FAQs or Errata documents released by Games Workshop for tournament use on or before 15ᵗʰ March 2024 will be in use during this event.
