Painting & Modelling Standards

All third-party models or proxies must be approved by the TO and have a photo and description of the unit sent to dwellersinthedark@gmail.com
If a model has been approved by the TO this will be under the condition you bring the original model as well in case your opponent wants you to use the original model instead of your 3d printed model then you must use the original or they can request that model to be removed as a casualty. You must have at least one unit card and upgrade for each unit. If multiple units are loaded out the same, then please have a way to indicate when a unit has used its upgrade or separate unit cards and upgrades for each unit.

This rule is to ensure that all our players who have travelled from around the world get to maximise their time playing games at the table.

Painting & Modelling Awards

Prizes will be awarded to individuals for following categories:
- Best Painted Army from all systems.
- Best Painted Mini from all systems.

For each category, the referees will each nominate 2 players for their work.
The event organiser will then choose the winner of each category from the nominees.

Rules Queries and Decisions

Referees will be using the "IGE WTC 2023 - Referee's Handbook" to adjudicate the event.
The referee's decision is final.
For the purpose of this event the English versions of all publications shall be used and as such all TO decisions will be based on the rules as written in English.
Making sure that all attendees are playing from the same version of the game ensures that there are no discrepancies or wording changes between the publications in use, usually due to translation issues.

Player & team absences

In the case that players are not available for individual games or the entire event, and replacements aren't available, some adjustments will be made to the Match-up and Scoring process. If a player is unable to compete in the event, a ringer player will be used to ensure everyone gets their full quota of games.
