ALLMAX®

RIGOROUS QUALITY STANDARDS YIELD POWERFUL RESULTS!
We believe in dedicating ourselves to strict policies of quality in manufacturing. We maintain the absolute highest grade of manufacturing for all our products – pharmaceutical grade cGMP, government-inspected facilities featuring state-of-the-art conditions with sealed air-pressurized chambers.

A HEALTHY OBSESSION WITH PURITY, POTENCY AND EFFECTIVE FORMULAS
We are obsessive about testing and analyzing each and every batch of our products. We go well beyond the call of duty to ensure that what we put on the label is actually in the product and in the required amounts and concentrations. We laboratory test every lot and every ingredient to ensure 100% validity. There are cheaper and easier ways to create the supplements you consume, but we do not believe in anything less, nor will we settle for it.

PROFESSIONAL GRADE PRODUCTS PROVIDE THE BEST RESULTS!
Customers have had a healthy obsession with ALLMAX for over 20 years because they get results. They understand the importance of following a solid diet and training hard in combination with our professional grade products. We understand that our customers demand more, which is why we consistently supply cutting-edge supplements to help them achieve their goals as quickly and efficiently as possible.

THE ALLMAX NUTRITION BRAND STANDS FOR SCIENCE, INNOVATION, QUALITY AND RESULTS.
We continue to quietly grow through word-of-mouth recommendation, as satisfied athletes and trainers continue to tell others about their impressive results.

DEMAND MORE. GET ALLMAX.

HIGH PERFORMANCE TRAINING FUEL

CARBION+™ has taken hydration to a whole new level. You need carbohydrates to fuel your muscles and delay the onset of fatigue. The phased carbs in CARBION+™ will maintain your blood glucose levels longer so you don't crash and you can keep going longer and harder at a higher level of performance.

When you sweat, you lose electrolytes as well as water. Increased levels of highly absorbable electrolytes in new CARBION+™ will ensure you stay hydrated so you can retain and utilize the fluids you are consuming. Additionally, the absorption blend in CARBION+™ helps to initiate the uptake of blood glucose into cells, meaning more actual fuel in the muscle.

What does this mean to you?

- More Refreshing & Better Hydration
- Fuels Improved Performance & Faster Recovery

PRE-CONTEST WATER REMOVAL SYSTEM

The most advanced competition-specific water loss system ever. HYDRADRY™ is tailored specifically to the needs of the on-stage competitor who needs the sharpest, razor-like hardness that only HYDRADRY™ can deliver.

HYDRADRY™ works by eliminating excess water from beneath the skin to reveal the kind of detail that wins shows. Puffy, bloated skin caused by excess water hides muscle definition; this is made even worse by the harsh lights used in stage competition.

The HYDRADRY™ Pre-Contest Water Loss System provides the ideal time frame to ensure razor-sharp definition. Since there are no harsh chemicals, HYDRADRY™ works with your body to gently but effectively reduce the appearance of edema or puffy skin caused by excess water.

What does this mean to you?

DESIGNED FOR THE COMPETITIVE ATHLETE

ALLMAX Pro-Competition Series LIVER D-TOX™ is a potent combination of clinically proven herbal extracts in their most pure and potent form along with powerful vitamin antioxidants such as vitamins C & E and selenium. NAC (N-Acetyl-Cysteine) is so potent that it is used in cases of liver toxicity due to acetaminophen.

A very minor reduction in function can result in less than optimal performance. A wide range of products out there can impair liver function, some rather dramatically. Alcohol, pharmaceutical or recreational drugs, aflatoxins and even common over-the-counter drugs such as acetaminophen in higher doses can tax the liver.

FAST ACTING DEEP SLEEP

ALLMAX has taken the best-of-the-best key ingredients known to produce a deep sleep and to get there quickly. We all know that a good night's sleep is essential. Get to sleep fast so you can wake up feeling rested and refreshed.

When you train heavy your adrenal glands release cortisol. Cortisol breaks down muscle tissue and counters testosterone, human growth hormone and other muscle building hormones. Without proper sleep you can't replenish these vital muscle building hormones.

A lack of a good night's sleep can also cause other problems such as the body's ability to store Glycogen, which is used as energy for your muscles. Meaning the effectiveness of your next workout can be improved with LIGHTS OUT SLEEP™!

What does this mean to you?

- Valerian Root - Calming sedative action
- L-Theanine - The calming component of Tea
- GABA - Can induce deeper sleep
- 5-HTP - Supports serotonin
- Melatonin - Realigns the wake/sleep cycle

ALL-IN-ONE JOINT RELIEF FORMULA

ALLFLEX® is an advanced recovery reliever that promotes joint health and mobility and reduces the pain and inflammation associated with intense physical activity. As a proprietary blend it has been formulated for both active individuals and competitive athletes who participate in high-intensity exercise.

As an athlete who trains intensely, your body is more prone to wear and tear and the increased demands will inevitably lead to sore joints and muscle pains. If you're pushing your body to the extreme at the gym, you demand something that will alleviate this pain quickly and effectively. ALLFLEX®, powered with UC•II was strategically designed to provide support and relief from the pounding your body takes in and out of the gym.

What does this mean to you?

- Helps Restore Joint Mobility
- Patented Type-II Collagen
- Reduces Joint Pain
- 3-LASTIN for inflammation

ALLMAX® ESSENTIALS

AGMATINE + ARGININE 45 g • Agmatine is known to increase nitric oxide and maintain it for long periods of time, have an impact on the pituitary release of natural growth hormone, act as an anti-anxiolytic, neuroprotectant and provide added anti-oxidant protection. Further research has suggested that agmatine improves insulin response which would have an impact on a leaner, harder physique.

AGMASURE FERMENTATION DERIVED · cGMP REGISTERED FACILITY · LAB TESTED EVERY LOT

ARGININE HCl 100 g & 400 g • Acts as a natural precursor to creatine synthesis in the body. It has also been shown to increase natural levels of growth hormone and increase the body's ability to consume and utilize oxygen.

LAB TESTED EVERY LOT · cGMP REGISTERED FACILITY · GLUTEN FREE TESTED · VEGAN · KOSHER CERTIFIED

BCAA 400 g • BCAAs are critical to building quality muscle fast. BCAAs are widely known to increase the rate muscle grows in response to training. In fact, research indicates that as much as 35% of muscle tissue is comprised of BCAAs. BCAAs are highly anti-catabolic. Since muscle tissue absorbs BCAAs directly, your muscle tissue has the fuel it needs and dramatically limits muscle tissue break down.

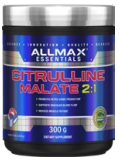
LAB TESTED EVERY LOT · cGMP REGISTERED FACILITY · GLUTEN FREE TESTED

BETA-ALANINE 100 g & 400 g • This non-essential amino acid increases the lactate threshold, which is the limiting factor in most training sessions. By promoting high intramuscular carnosine concentrations, BETA-ALANINE acts as a precursor to nitric oxide (NO) production.

BETA-Synth™ · NSF CERTIFIED FOR SPORT CHOICE · LAB TESTED EVERY LOT · cGMP REGISTERED FACILITY · GLUTEN FREE TESTED · KOSHER CERTIFIED

CAFFEINE 100 Tablets • Caffeine can provide the energy you need to get through your workouts. It can also serve as a powerful energy boost for those days that you just don't seem to have the energy to make it through a hard training session.

LAB TESTED EVERY LOT · cGMP REGISTERED FACILITY · VEGAN



CITRULLINE MALATE 300 g • The superior 2:1 provides 67% citrulline compared to only 50% in typical citrulline malate. If it doesn't say 2:1, it isn't! Citrulline Malate [2:1] improves training intensity, endurance and speed of recovery. It promotes nitric oxide production, supports vascular blood flow, increases ATP production and can reduce muscle fatigue.

LAB TESTED EVERY LOT · cGMP REGISTERED FACILITY · VEGAN

CLA95™ 30, 90 & 150 Softgels • Derived from pure safflower oil, only CLA95™ provides a true 95% yield of the active CLA isomers and has been shown to improve body composition and improve body shape with diet and exercise. Studies have shown that CLA provides numerous health benefits. ALLMAX CLA95™ includes natural tocopherols (Vitamin E) to help protect CLA from oxidation.

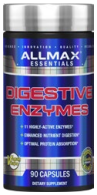
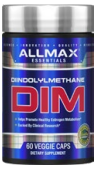
ALLMAX® ESSENTIALS

CREATINE 100 g, 400 g & 1,000 g (Powder), 120 Caps
Creatine has been shown to increase maximal strength and endurance as much as 15% and up to 30% in power output and energy release in short burst/interval sports. Aids in increases of muscle mass, strength and size.



DIGESTIVE ENZYMES 90 Caps • Very high in potency and with 4 different variations with different pH activities to ensure maximum protein absorption. Enhanced protein absorption leads to increased levels of plasma amino acids and nitrogen retention levels, both essential for growth and recovery. 11 different enzyme forms have been recruited to supply a truly full spectrum of highly active enzymes.



DIM 60 Caps • Diindolymethane, also known as DIM, is a naturally-occurring compound found in vegetables like broccoli and kale. As a supplement, it has gained popularity due to its potential health benefits, including supporting hormonal balance in both men and women. DIM may also help to promote healthy digestion and weight management, making it a popular choice for those looking to support their health and wellness goals.

D-ASPARTIC ACID 100 g • D-Aspartic Acid is a racemate isomer of the more common L-Aspartic Acid. Recent human clinical research using oral dosages of 3.12 g of D-Aspartic Acid revealed dramatic increases in testosterone of 42% on average in just 12 days. Increases in testosterone can have a profound effect on strength, muscle size, density, thickness and fat loss.

EAA 320 g • There are nine EAAs (Essential Amino Acids) required by your body to build muscle. Your body cannot produce all of these EAAs on its own requiring you to look to other sources such as diet or supplements. We deliver 9.25g of all nine EAAs including 5,088mg of Branch Chain Amino Acids (BCAA) in a 2:1:1 ratio which are clinically proven to support muscle growth and recovery.

FADOGIA AGRESTIS 120 Caps • Fadogia Agrestis has been used for centuries in traditional African medicine to support muscle building, improve athletic performance, treat erectile dysfunction and increase testosterone. Additionally, is it believed to have a variety of health benefits, including reducing inflammation, improving blood circulation, boosting the immune system, and aiding in digestion.

GLUTAMINE 100 g, 400 g & 1,000 g (Powder) • The ultimate in bodybuilding anabolic support, glutamine is the most abundant amino acid found in muscle tissue. During times of stress, including exercise and athletic events, glutamine is one of the first amino acids to be oxidized. Supplementation with glutamine may help to support muscle glutamine levels, prevent muscle tissue breakdown and increase recovery.

ALLMAX® ESSENTIALS

HMB 120 Caps • HMB is a metabolite of the amino acid Leucine and is produced naturally in the body in small amounts. In the body, less than five percent of all leucine is converted to HMB. As a result, athletes and bodybuilders have recognized this and have supplemented with HMB to build and repair muscle as well as improve recovery from exercise.

KSM-66 60 Caps • Ashwagandha is an evergreen shrub that is used to boost energy and reduce stress. Ashwagandha KSM-66 is the highest concentration, most bioavailable full-spectrum root extract available on the market today. It retains natural constituents of the herb in the original balance. It also has an extensive set of research studies and clinical trials.

L-CARNITINE 16 oz Liquid & 120 Caps • The perfect stimulant free fat metabolizer, performance enhancer and anti-oxidant, L-carnitine is the perfect supplement for fat loss, muscle gain and high endurance stamina. Whether you choose rapid delivery capsule, rapid absorption liquid L-carnitine, you know you're getting ALLMAX purity and potency, fully tested and guaranteed.

LEUCINE 400 g • LEUCINE (C6H13NO2) is an essential branched chain amino acid (BCAA) known throughout bodybuilding as the ultimate muscle-builder. LEUCINE is essential for achieving a positive nitrogen balance and building lean muscle mass as it activates an anabolic pathway called the mTOR pathway which stimulates muscle protein synthesis.

MCT OIL 12 oz • MCT Oil is derived from 100% coconut oil with a 60:40 blend of C8 (Caprylic Acid) and C10 (Capric Acid). Helps sustain energy, supports body fat reduction and boosts metabolism. C8 and C10 are shown to be the easiest and fastest MCTs for the body to absorb and process into energy. C8 is widely known as the best and fastest absorbing medium chain triglyceride for an instant clean energy boost.

LION'S MANE 60 Caps • Fuel your brain with the power of LION'S MANE. Each serving contains 600 mg of organic Lion's Mane harvested from organic mushrooms. ALLMAX LION'S MANE delivers the whole fruiting body to support mental focus, clarity and mood. Lion's Mane also contains fungal polysaccharides which have been shown to have immunomodulating properties.

LONGJACK TONGKAT ALI 60 Caps • ALLMAX LONGJACK TONGKAT ALI is a 100% unadulterated Longjack Tongkat Ali (Eurycoma longifolia) extract. The benefits of Tongkat Ali include improved vitality, increased libido and elevated sex drive. When used as directed, Allmax Tongkat Ali may help enhance vigor and vitality while contributing to an overall sense of well-being.

ALLMAX® ESSENTIALS

NAC 60 Caps • NAC helps to increase the levels of Glutathione which is considered the most powerful antioxidant – helping to neutralize free radicals. In addition to protecting the body from oxidative damage, an NAC supplement also helps your body's detoxification system. NAC benefits also include helping to support the liver and kidney function in its natural detoxification process.

OMEGA3 180 Softgels • Athletes have long known the power of deep cold-water fish oil to attain peak physical performance. The standard North American diet is seriously deficient in consumption of omega-3 essential fatty acids (EFAs) and is heavily unbalanced by an over abundance of omega-6 and 9 EFAs. Known as the healthiest of fats, omega-3 EFAs provide a wide range of health and performance benefits.

R+ALA 60 Caps • R-ALA promotes the muscle's uptake of glycogen by optimizing insulin activity and helps speed up the amount of nutrients shuttled to your muscles pre- and post-workout. R-ALA can help speed up muscle recovery and can be combined with creatine to create a powerful anabolic compound.

TAURINE 400 g • As a non-essential amino acid, taurine is one of the most abundant amino acids in the body. It can help improve exercise performance and body composition. Similar to glutamine, taurine can also be considered a conditionally essential amino acid as during times of extreme physical exhaustion, the body does not produce enough and supplementation is required.

TRIBX90® 90 Caps • Provides you with the highest quality in 100% pure Bulgarian species tribulus terrestris. Athletes use tribulus terrestris because of the purported effects of helping to ensure their own natural levels of testosterone are at a normal level at all times. Popular among bodybuilders, tribulus terrestris is the perfect complement to your hardcore training regimen.

TUDCA+ 60 Caps • TUDCA (Tauroursodexoycholic acid) is a little known ingredient that can rapidly improve liver function. TUDCA is a component of bile acid. The body only produces a small amount, but through oral supplementation one can easily increase the amount of TUDCA in the body.

YOHIMBINE + RAUWOLSCINE 60 Caps Yohimbine + Rauwolscine (Alpha-Yohimbine) is frequently used for rapid fat loss due to its targeted ability to act on stored fat. Yohimbine + Rauwolscine effectively shuts down fat storage and increases lipolysis; the release of fatty acids within stored fat.

ZMX² 90 Caps • ALLMAX has achieved maximum absorption levels with next generation ingredients like P5P (Vitamin B6 in the advanced Pyridoxal-5-Phosphate form) delivering 550%, highly bioavailable magnesium bisglycinate and ionically-bound zinc gluconate at 200%.

Simple, Mouthwatering Recipe Ideas

Chocolate Mint Cookies

Ingredients:
- 3 scoops ISOFLEX Chocolate Mint
- 3 tbsp of peanut butter
- 1/2 cup of ground oats
- 2 tbsp of coconut flour
- 1/2 cup egg whites
- 9 slivered almonds (optional)
- 2 squares of sugar-free or 80% dark chocolate

Preparation:
1) Place oats in a food processor and blend until semi-fine yet still coarse.
2) Mix ISOFLEX, peanut butter, coconut flour and ground oats together. Slowly add in the egg whites and stir. Let stand for 10 minutes. This will help the oats absorb all of the liquid and allows for easy shaping.
3) Shape the mixture into circle cookies and press down on wax paper.
4) Heat the chocolate in the microwave for 1 minute until melted. Spread chocolate on top of each cookie using a spatula. Top with slivered almonds (optional).
5) Place in fridge for 30 minutes. Leave cookies on wax paper and place in a sealed bag(s) in the fridge to keep fresh.

Easy Overnight Protein Oats

Ingredients:
- 1 scoop ISONATURAL vanilla
- 1 cup rolled oats
- 1 cup almond milk
- 1 container of coconut yogurt
- 1 tbsp chia seeds
- 1 tsp cinnamon

Topping (optional): raspberries, coconut, banana

Preparation:
1) Mix all ingredients together in a bowl and pour it into a jar.
2) Place the jar in the fridge overnight.
3) Add your favorite toppings in the morning, eat cold or heat up on the stove in a pan with coconut oil over low heat.

Power-Up Protein Pancakes

Ingredients:
- 1-2 scoops CLASSIC ALLWHEY (your favorite flavor)
- 1 cup oats
- 2 eggs
- 1 banana
- 1/2 cup egg whites
- 4 tsp baking powder
- 2 tbsp flax meal
- pinch of salt and cinnamon

Preparation:
1) Blend oats in a food processor to make a flour consistency.
2) Preheat stove top and spray a pan with non-stick cooking oil.
3) Pour the oat flour into a bowl and mix in the remaining dry ingredients then combine the wet ingredients to create a batter.
4) Scoop 1/4 cup of batter into the pan. Cook for approx. 1 minute on each side, then remove from the pan when ready. Yields 6-9 pancakes.
5. Optional: Top with your choice of fruit or real maple syrup and enjoy!

Frozen BCAA Pops

Ingredients:
- 1 scoop AMINOCORE (any flavor)
- 1 cup water
- Mixed berries or chopped fruit (optional)

Preparation:
1) Mix water and AMINOCORE in a shaker cup until dissolved.
2) Pour into a popsicle mold or ice tray.
3) Freeze for 4-5 hours.
4) Take out of the mold to enjoy!

Monster Mass Shake

Ingredients:
- 1 scoop QUICKMASS (any flavor)
- 1 banana
- 1 cup coconut milk
- 1/4 tsp ground cinnamon
- 1 tbsp chia seeds
- 1 cup ice

Preparation:
1) Mix all ingredients in a blender until well combined.
2) Pour into a glass
3) Optional: Top with shredded unsweetened coconut and a sprinkle of cocoa powder.
