The Optimal Plug-in Solution

✓ Open network communications with ACMA Approval (Sigfox or LoRaWAN)

✓ Predictable battery life in excess of the water meter life (15+ years with default settings)

✓ Totally protected electronics from moisture ingress (IP69K)

✓ Continuous pulse sensing and totaliser retention for lifetime of device

✓ Restricted and secure NFC App for commissioning

✓ Uplink messages configurable from hourly to daily
(default is 4-hourly with hourly totaliser values)

✓ Compatible with virtually all water meters with a pulse output
(reliable hall-effect sensor for Elster V100 water meters)

✓ Mechanical register backup if electronics or battery fail

✓ Leak Alerts plus Low & High Consumption Alerts

✓ Tamper Detection with Alerts
(cable cut/short + sensor removal/magnetic interference)

✓ Compact Integral Mounting Kit options with full cable protection

✓ Tamper-proof / Anti-theft fixing options

✓ Competitive pricing for both Hardware and NaaS/SaaS

✓ Complete "End-to-End" AMI solution
