15 Ideas To Make
For Boys And Men
Out Of Satin

LIST

15 Ideas To Make For Boys And Men Out Of Satin

One of the hardest things to do for men is to decide what to sew for them and hope they love what you have made.

There is something in this list for any age and any interest. Whether you are looking for something for a special occasion or something for everyday comfort, there is something in one of these 15 ideas.

Which Will You Make?

15 Ideas To Make For Boys And Men Out Of Satin

Satin is so soft and smooth it begs to be made into something special.

I share 15 things you can make for the man in your life out of satin fabric. Whether you're looking for a gift for your husband, son, boyfriend, or even just a friend, these ideas are sure to please.

Before I do, I want to share the benefits and origins of satin.

What Is Satin?

The word satin describes a weave not the textile, and most fabric characterised as satin has a soft, shiny finish.

Weaves are often named from the way their threads are laid over each other. In this instance, satin threads are woven in such a way that one side of the fabric has a bold sheen, while the other side is dull.

The Origins Of Satin

Satin originated in medieval China in the port city of Quanzhou, which was called Zaitun in medieval Arabic, hence the name satin today.

Types Of Satin?

Then it was exclusively woven with Silk but today there are several [types of Satin](#) including Polysatin which is what I use to print my fabrics. Any long continuous fibre can be woven successfully into a satin weave.

Satin is characterised by its shiny, beautiful drape. It's durable and anti-wrinkle nature makes it popular for upholstery, clothing and accessories, bed linen and footwear. Due to it's shine it can be a little slippery to work with and it can catch and snag easily when sewing.

But there are tricks to overcome these such as cutting your pattern pieces perpendicular to the selvage [as shown here](#).

How To Care For Satin?

Caring for Satin also has its tricks including flour to [remove oily stains](#). Like anything the more care we take with something the longer it will last.

15 Ideas To Make For Boys And Men Out Of Satin
