## Bring Hope to the Children of Ukraine with Music

Nataliia Koptienkova, director of The Suzuki School of Ukraine, was thinking of her students when the Russian invasion rocked the capital of Kyiv in February 2022. The school was just outside the city, and the worst of the initial fighting was centralized there. Over a year later, they still need our help.

Please help the GoFundMe campaign to provide new instruments, accessories, sheet music, and much more. Even a small donation will help reach their fundraising goal. If you can't make a donation, share the fundraiser to help spread the word.
