

ARCBRIGHT 4 PRO LED LOW BAY

10,800 Lumens

The Lumen Right ArcBright Pro 4 Low Bay is designed with an angled front for better light coverage and a flat back for true flush mount. Made in the USA with American steel, this fixture comes with a best-in-the-industry 10 year complete replacement warranty.

- ✦ Curved, sloping high bay design offers 30% more coverage and a more uniform light distribution than traditional, flat high bays.
- ✦ Tool-less removal of reflector makes this a truly quick install fixture.
- ✦ Best in the industry, high-performance, color coded lamp holders made in Italy. Red designates the wired/hot side of the fixture and green for the non-powered side.
- ✦ This is a true flush mount fixture. There are no large obstructions on the rear - just a few screw heads and 1/8" tab for the wiring door.
- ✦ Easy installation, many DIY'ers will be able to install without an electrician. Each fixture includes detailed instructions and our website has all the tutorials to help you save money and install yourself if you choose.
- ✦ Ideal mounting height: best between 10' and 15'.

Certifications:	UL, DUL, Damp Rated, ETL Sanitation Certified
Total Lumens:	10,800
Power Usage:	72 watts
Color Temp:	5000 Kelvin (Sunlight White)
Color Index:	>83
Efficacy:	150 lumens per watt
Beam Angle:	160°
