

SOLUTIONS SEALERS

PROTEX Dense Stone Sealer is a specialised penetrating sealer for treating low absorptive surfaces such as polished porcelain tiles. The small molecular structure of this sealer means that it penetrates into the microscopic pores of the tile and repels water and oil-borne stains.

**Conditions Apply*

FEATURES

- Suitable for internal and external use.
- Invisible, impregnating material creates an excellent barrier against stains.
- Allows tile to breathe.
- Makes routine cleaning easier.
- Very fine molecules leaving little or no residue on the surface after sealing.
