

Ring Size Guide

In order to choose the right size for your SQ ring, please print out this A4 sheet, selecting "actual size" in your printing options. Once it has been printed out, check that the scale is correct by using the line below: its length must correspond to that of a credit card (86mm).

PLACE THE CREDIT CARD HERE

Measure Your Finger

- Using a length of string or ribbon, wrap it around the base of your finger. To ensure the ring fits comfortably, we suggest measuring your finger at the end of the day.
- With a pen, mark the point on the string where the end meets.
- Measure the string in millimetres ruler.
- Use the size chart to match the ruler measurement with the 1st column (named "finger circumference in MM").

Measure Your Existing Ring

You can then find your size by placing one of your rings on the European ring sizer below. If the inside of the ring lines up exactly with the outer contour of the printed circle, you have found the right size.

48	49	50	51	52	53	54	55
15.28mm	15.50mm	15.92mm	16.23mm	16.55mm	16.87mm	17.19mm	17.51mm
56	57	58	59	60	61	62	
17.83mm	18.41mm	18.46mm	18.78mm	19.10mm	19.42mm	19.74mm	

TIPS

- Measure your finger at the end of the day.
- Do not measure your finger when it is hot or cold.
- Remember that the two hands differ slightly in size.
- Make sure that the chosen size leaves enough room for the ring to pass easily along the entire length of the finger.
- If you are hesitating between two sizes, we recommend you to choose the larger one.

-
- When placing your order, please note that SQ uses European sizes.
 - Please do not hesitate to reach out to us to help you find your ring size through Whatsapp 00966501003936
