① Installation of CPT's may require a larger enclosure. Reference page 6/xxx or contact the factory for dimensions.

② 45VA transformer kits will include secondary but not primary fusing. According to NEC 430.72, 450.3, and

U/L 508, primary fuses are not required for control transformers rated less than 50VA which are inherently protected. Sizes 50VA and higher include 2-pole primary fusing and 1-pole secondary fusing.
