AS100

Product Highlights

- The AS100 features an ergonomic aluminum handle, soft touch accents, fixed blade with easy tool-free blade change, and a steel locking guard.
- The steel locking guard will automatically return to the 'safe' position as soon as it leaves the material being cut – locking into place and protecting the user against accidental cuts.
- The AS100 design requires lower force for pull through reducing repetitive motion injuries.

Features

- The heavy-duty aluminum handle is made to withstand the most difficult tasks
- Easy tool-free blade change
- Ambidextrous & ergonomic handle
- Blade locking mechanism
- Blunted tip blade to prevent punctures
- High visibility green

Blades

The perfect blade for industrial and trade applications. Proudly powered by MOZART Blades made in Solingen, Germany.

AS100 Replacement Blade

Replacement blades sold in packs of 100

The Riteknife Way

Passionate about a safer workplace for all, Riteknife develops innovative cutting tools that are designed and engineered for maximum safety, durability, and ease of use.

Our Mission

Our mission is to revolutionize workplace safety by creating the most innovative safety products attached to every worker's hip around the world.

Our Values

- Customer Obsession
- Innovation
- Accountability
- Authenticity
- Warrior Spirit

Our Products are Different

We make safety managers look like heroes – helping them eliminate risk and reduce cost, while equipping their end-users with cutting tools they love.

- 1. We have included safety features that other knife manufactures have ignored.
- 2. Our knives reduce repetitive motion injuries because we have thought through the ergonomics of the handles, blade angle, specific grindings, blade thickness and overall dimensions to greatly reduce resistance while cutting.
- 3. Riteknife specifically designed products to help eliminate product damage because we have worked to perfect blade depth to protect what's inside the packages you open.
- 4. Our knives are more durable. They are designed and tested to stand up to the rigors of the industrial workplace. Our goal is to make knives that last and not end up in landfills.
- 5. Once our customers receive Riteknife products, we are not done. We facilitate change for your associates through our rigorous training approach and high-touch support. Our goal is to dramatically increase the acceptance rates while creating a safer workplace.
