

Product Highlights

With a micro ceramic blade, the SO400 is the ideal safety knife for effortlessly cutting single-layer materials without the risk of accidental slips and cuts.

Developed with and for safety professionals, this unique safety knife features an integrated magnet for easy fastening to the many metal surfaces found on the floor of warehouses and factories. The Riteknife green cutter has a lanyard hole that ensures the SO400 is always on hand.

Features

- Minimize risk of lacerations during handling and storage
- Built for Durability and Ease
Molded out of tough polycarbonate
- High visibility green

The Ritekknife Way

Passionate about a safer workplace for all, Ritekknife develops innovative cutting tools that are designed and engineered for maximum safety, durability, and ease of use.

Our Mission

Our mission is to revolutionize workplace safety by creating the most innovative safety products attached to every worker's hip around the world.

Our Values

- Customer Obsession
- Innovation
- Accountability
- Authenticity
- Warrior Spirit

Our Products are Different

We make safety managers look like heroes – helping them eliminate risk and reduce cost, while equipping their end-users with cutting tools they love.

1. We have included safety features that other knife manufactures have ignored.
2. Our knives reduce repetitive motion injuries because we have thought through the ergonomics of the handles, blade angle, specific grindings, blade thickness and overall dimensions to greatly reduce resistance while cutting.
3. Ritekknife specifically designed products to help eliminate product damage because we have worked to perfect blade depth to protect what's inside the packages you open.
4. Our knives are more durable. They are designed and tested to stand up to the rigors of the industrial workplace. Our goal is to make knives that last and not end up in landfills.
5. Once our customers receive Ritekknife products, we are not done. We facilitate change for your associates through our rigorous training approach and high-touch support. Our goal is to dramatically increase the acceptance rates while creating a safer workplace.
