# SAVIA Table

The Savia table offers the perfect combination of design and functionality. This unique piece of furniture, with its minimalist design, is divided by six different ash wood pieces, that merge through four lacquered wood nerves. The result is a piece that resembles the nerves on a leaf. Its legs play a key role in the uniqueness of this design. They are built using solid wood, and lacquered wood transversal pieces, all hexagonally shaped.

The Savia table is available in three different finishes and can be matched with two different colored details, black and gold.
