With a unique and sustainable design, our vases co-created with Mendelek are the perfect combination of beauty, functionality and sustainability.

Crafted with eco-friendly plant-based plastic and 30% wood fibers from sustainable forests. Its antelope canyon-inspired shape adds a stylish, slender, and elegant touch to your home.

This collection of 3D printed vases bring a unique approach to your home decor, by including organic shapes with sustainable materials and a beautiful design.

Con un diseño único y sostenible, nuestros jarrones co-creados con Mendelek son la combinación perfecta de belleza, funcionalidad y sostenibilidad.

Fabricados con plástico ecológico de origen vegetal y un 30% de fibras de madera procedentes de bosques sostenibles. Su forma inspirada en el cañón del antílope añade un toque de estilo, esbeltez y elegancia a su hogar.

Esta colección de jarrones impresos en 3D aporta un enfoque único a la decoración de su hogar, al incluir formas orgánicas con materiales sostenibles y un hermoso diseño.

Wash & Use

Hand wash with cold water.
For stains on the corch side, use a damp cloth.
Not recommended for exterior use since the sun can discolor the fabric.

Recommendations & Notes

If you want to place a plant pot inside, we recommend using a bottom plate to prevent the fabric to be in direct contact with water.

Pattern may vary slightly since this is a hand painted product.
