1 Take out the diffuser head

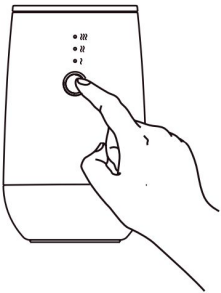

2 Screw on the 15ml bottle supplied.

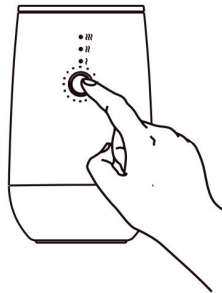

3 Push down the diffuser head

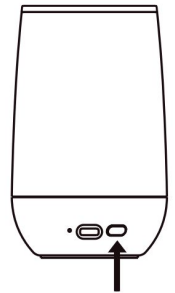

4 Long press to switch the machine on

5 Select the intensity 1-3

6 Click to change the ambient light.

Features

Charging:

When charging, the light in the back is red and steady. When fully charged the light turns green.

Auto power off:

When idle for a long time, the device will automatically power off after 12 hours.

Ambient light:

Total 7 light colors: red, yellow, green, cyan, blue, purple, white.

Buzzer:

The device emits a beep when it is connected to Bluetooth, the settings are saved and when it is switched on.

The buttons:

On/Off button: long press to switch on/off the machine, short press to change intensity.

Ambient light button: Press to change the colour or turn off the light. Long press and hold for 3 seconds to restore default password 8888; all settings will be restored to factory default.

Intensity	Diffusion	Pause
Custom	5-15s	60-900s
1	5s	150s
2	10s	120s
3	10s	60s

See the **App section** for more information on intensity settings

Using the app

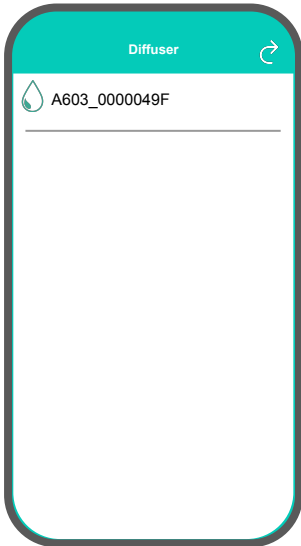

Where to get the app:

Please, search for “**essenzapura**” in Google Play Store or App Store, and you will find this icon.

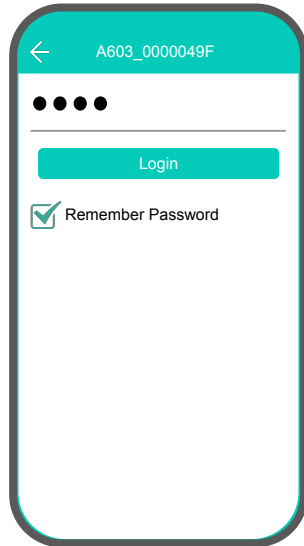

Note:

1. Please make sure that the Bluetooth function is turned on.
2. Please make sure that the location function of the mobile phone is turned on.

Open the app and the diffuser will appear.

Select the diffuser and login (Default password is “8888”)

Using the app

Diffuser Control

From here you can customise how you control your diffuser...

Name

Change the default name to a name of your choosing.

Location

If you plan on having multiple diffusers then you can add a location of this device.

Working Period

You can now add multiple working periods. Each working period can have different on/off times, can work on different days, and at different intensities.

Start/Stop working times

Scroll through the time wheels to select the start and stop times.

Repeat

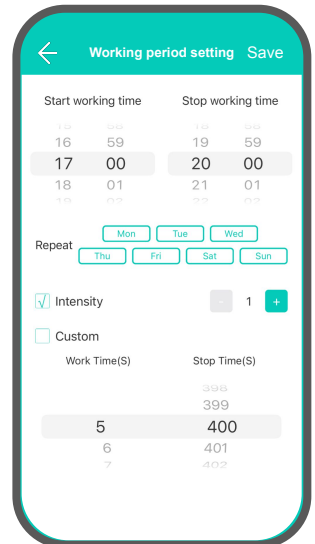

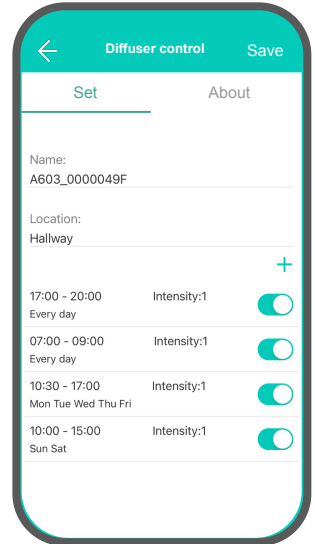

Select the days you want the working period to operate on.

Intensity

The device has 3 preset intensities. 1 for low, 2 for medium, 3 for high.

Custom

Alternatively you can set your own intensity. From here you can alter how long the device run for, and how long it will pause for in between these run times.

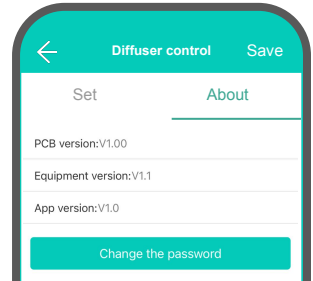

Note: Remember to click “**Save**” before returning to the main screen

Using the app

About

The About screen shows the version status of both the App and the Device.

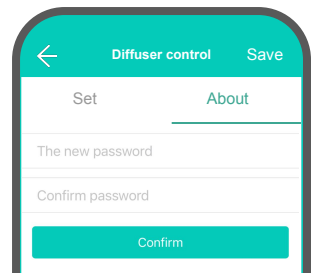

Changing the Password

To change the password, click on the button at the bottom of the screen.

Enter your new password

Confirm your new password

Click "Confirm" to save.

Information

Decanting the oil

Please note that the device capacity is 15ml. However the oils can be purchased in 20ml and 200ml bottle sizes. Therefore you will need to decant the oil from the larger bottle to the 15ml and the screw the 15 ml bottle into the device.

The sample bottle

Your device will come with a 8ml sample. This is so that you can try the unit, make sure you like it, before starting on the oil you purchase. This small sample bottle will screw directly into the device

Continued

More Information

Switching to a different scent

If you want to switch to a different scent it is recommended that you clean out the tubes with some alcohol. Simply put some rubbing alcohol into the empty bottle and let it run for an hour or so, before starting on the new fragrance

Tips

1

After installation, please keep the machine vertical. Tilted or angled position may cause oil overflow, which will contaminate equipment circuit.

2

Don't modify, disassemble or try to repair the machine. If the machine has any malfunctions, please contact us.

3

Do not put the machine in a hot or humid place to avoid damages.

DO NOT use quick charger for the device.

PROBLEM	SOLUTION
No diffusion	<ol style="list-style-type: none">1. Check if the power is ON.2. The atomizing core may be blocked, please clean the impurities inside with alcohol or replace with a new one.3. Expanding on your scent

The Lux model is the entry model in our range. This diffuser is ideal for a space up to 30 square metres (Sq m). If you have multiple rooms of this size then you can simply add more Lux diffusers. You can then use the app to control each diffuser in each room individually.

If you have a larger expanse to cover, then we suggest looking at the larger units in our range.
