SERIES 2

The Perfect Evolution of THE PERFECT CHAIR®

At Human Touch®, we don't view perfection as a result, but rather an ongoing quest. So, in our new **Perfect Chair Series 2**, we added elements that make our industry-leading chair look, work and feel even more perfect. Building on its elegant form and zero-gravity seating position that physicians recommend as the healthiest way to sit, we incorporated several improvements, including brushed aluminum leg accents, a sleek pad design, "HD" lumbar support and easy-touch smooth recline motion. Sit back and relax, this stunning evolution is a wellness and style revolution.

PERFECT CHAIR SERIES 2

EXCLUSIVE FEATURES

ERGONOMIC PAD DESIGN

Expertly crafted using only premium upholsteries, this sleek new pad is designed for ergonomic comfort and support. SōfHyde, top-grain leather or premium leather upholstery covers the pad from head to toe, including the arms.

EASY-TOUCH CONTROL

The subtle thumb-control lever, conveniently located inside the left arm, provides split-second digital acceleration at all recline angles.

“HD” LUMBAR SUPPORT

Experience relaxing postural support to the lower lumbar region with the high-density, or “HD” support that has been built in to the pad set.

SCULPTED LEG ACCENTS WITH INTEGRATED FLOOR GLIDE

Upscale brushed aluminum leg accent cues make this chair an even more perfect addition to your décor.

Authority on Wellness

Perfect Chair zero-gravity is real science, but it feels like magic.

Everybody talks about zero-gravity in their seating products. But at Human Touch, we lead the industry with innovative research that makes it possible to actually see and feel how the Zero-Gravity Perfect Chair relieves stress.

"As the Perfect Chair reclines, the muscles instantaneously start relaxing. When the chair reaches neutral posture there is a huge reduction in the state of muscle irritation, establishing objectively that the Perfect Chair promotes spinal health."

[Enjoy the Perfect Chair throughout the day - touch to find out more.](#)

Actual Perfect Chair stress test
David Marcarian applying sEMG electrodes to measure muscle activity.

"In a dynamic test, EKG stick-on electrodes are placed on lower lumbar muscle groups. The sEMG shows that muscle activity is in a stressed or contracted position while sitting upright. As the Perfect Chair reclines to zero-gravity, the sEMG shows reduced electrical activity in the lumbar muscles which signifies the muscles are no longer contracting and are free from stress."

benefits

- Relaxes and rejuvenates the spine by naturally decompressing the vertebrae
- Relieves muscle tension, soreness and fatigue
- Elevates legs above the heart, helping to improve blood flow
- Helps expand lung capacity, allowing for deeper, more relaxed breathing
- Improves circulation and blood-oxygen levels

The Finest Materials

the warmth of **WOOD**

Using only 100% renewable, plantation-grown solid parawood, highly trained Human Touch master woodworkers hand-carve and hand-finish the signature balanced curves supporting the Perfect Chair. As one of the strongest woods on earth, the Hevea Brasiliensis (rubber tree) ensures durability and beauty for years of use.

5-Year Limited Warranty

Not all seats are created equal.

SōfHyde

SōfHyde is a luxurious and durable upholstery expertly formulated to replicate the comfort, style and “feel” of real leather. SōfHyde is designed to last for many years of use and is comfortable, soft to the touch and stain-resistant.

Top-Grain Leather

Surrounding yourself in fine leather is the ultimate luxury. Our top-grain, aniline-dyed leather is made from the strongest and most supple part of the hide. Perfect Chairs are made in a variety of different leather colors, finishes and matches, including some rare and hard-to-find vegetable-tanned and glass-polished limited edition selections. No matter which one you choose, the leather’s texture is soft to the touch and its hues are rich and inviting. When seated in the chair, you will feel cradled in comfort.

Premium Leather

Only five percent of the world’s natural, uncorrected cowhides are sufficiently free of imperfections to qualify for use as Human Touch Premium Leather. Top-grain, aniline-dyed hides from the United States and Brazil are carefully measured, cut and sewn all under one roof. This is what makes the supple leather luxurious, resilient and so soft to the touch.

All-Day Comfort

Bookend Your Day

The Perfect Chair is an integral part of your day.

- Use it upon waking as a comfortable place to sit and read the morning paper.
- Take a break after your morning workout to recover.
- Rejuvenate with an afternoon nap.
- Relax after a long day at work and enjoy a home theater experience.
- Prepare for a soothing sleep.

Start and end your day in perfect comfort and relaxation with the Perfect Chair.

Immersion Motion

sit down to relax

recline to feel better®

defy gravity™

Defy Gravity™

The zero-gravity ergonomics of the Perfect Chair are a unique balance of support and seating comfort. The neutral posture position raises the legs above the heart, relieving weight from the spine. In this position, the body relaxes into a virtually weightless posture, which physicians recommend as the healthiest way to sit. Maximum ergonomic posture is ensured at all recline angles through the fixed-form seating position. Find relief from stress as you defy gravity in the Perfect Chair.
