Straight Joint

#### STEP 1

Unzip the travel tote and remove 1 folded play tent and 1 small bag containing 4 collapsible tent poles.

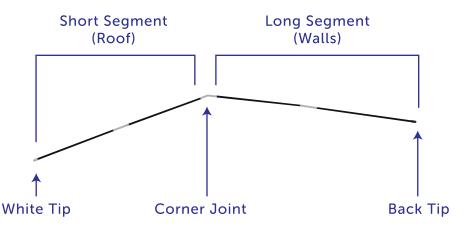

#### STEP 2

Remove the 4 tent poles. To assemble, insert the fiberglass rods into the metal joints to create 4 tent poles.

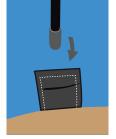

#### NOTE

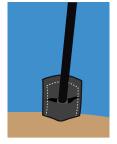

When the tent pole is fully assembled, you will notice that the pole is longer on one side of the Corner Joint than the other.

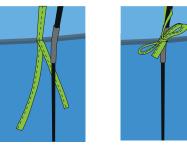

The shorter side with the **White Tip** will support the upper section of the tent (roof). The **Black Tip** will be at the bottom to support the walls.

#### STEP 3

Slide the White Tips of the tent poles into the Roof Pockets and the **Black Tips** into the corresponding Floor Pockets at the base of the tent.

### STEP 4

Align the Corner Joint of each pole to the inner tent ties; secure each pole using the tent ties.

## Packing the Play Tent

#### STEP 1

Remove the poles and collapse the tent into 1 flat circular shape.

## STEP 2

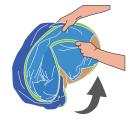

Grasp the wire hoop edges and begin twisting into a Figure 8.

This next step is tricky; fold the

Manipulate the tent to collapse into 3 smaller stacked circles that will fit in the travel tote.

#### **COLLAPSING THE TENT:**

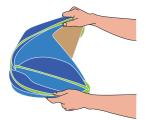

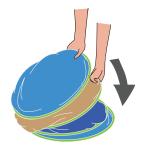

Figure 8 inward, collapsing it like you are crossing your arms to embrace yourself.

#### STEP 4

Place the folded tent inside the travel tote.

Fold the tent poles and place them in their bag before stowing them in the travel tote.

Zip the travel tote to secure your tent and poles.
