# **ABOUT**

EverSmile® WhitenFresh™ is a patented cleaning, freshening and tooth whitening spray that also kills bacteria that cause bad breath and tooth decay.

### **DIRECTIONS**

Spray 1 pump into mouth on teeth and tongue. Use tongue to spread solution over teeth and swish product for up to 20 seconds. If you experience sensitivity, reduce number of pumps. Use 3 times per day for optimal results. Can be used up to 6 times per day.

### **INGREDIENTS**

Water, hydrogen peroxide, glycerine, PVP, PEG, sodium lauryl sulfate, sucralose, sodium citrate, sodium benzoate, etidronic acid, mentha arvensis (mint) oil.

### **ALSO GREAT WITH**

- Bleaching Travs
- Clear Aligners
- Dentures/False Teeth
- Mouth Guards
- Night Guards
- Sports Guards
- Retainers
- Other Dental Appliances

EverSmile® WhitenFresh™ is not affiliated in any way with Align Technology, Inc., Clear Correct Holdings, Inc., or Dentsply Sirona, Inc.

# FAQ

Does EverSmile WhitenFresh cause tooth sensitivity? Tooth sensitivity has never been reported with the proper use of EverSmile WhitenFresh when used as directed. If sensitivity does occur reduce usage to once per day and consult your orthodontist.

### How many times per day can I use EverSmile

EverSmile WhitenFresh can be used safely up to 6 times per day.

How long does one bottle of EverSmile WhitenFresh last? Each 10ml bottle will last approximately 30 days if used 3 times daily.

#### How long until my teeth start to whiten?

The whitening process will begin immediately, with visible results after 2-3 weeks of daily use.

#### Is WhitenFresh safe on all orthodontics brackets/materials?

Yes! WhitenFresh is safe and works on all forms of brackets. wires, dental crowns, veneers, composites, and clear aligners.

#### Is this product safe to use while pregnant?

As with any tooth whitening product, EverSmile WhitenFresh cannot be recommended while pregnant.

#### Why was WhitenFresh developed?

WhitenFresh was developed for on-the-go customers to freshen breath and whiten teeth using a patent pending formula consisting of hydrogen peroxide and cleaning agents. The hydrogen peroxide kills bacteria that causes bad breath and tooth decay. The whitening effects are similar to those of any peroxide based whitening product.

## Whiten Fresh

On-The-Go

Teeth Whitening Breath Spray

Orthodontist Developed • Orthodontist Recommended

No Soaking / Fresh Breath

No Rinsing \( \square \) Wear & Go!

## THE PROBLEM

Bad Breath is a very common problem. Brushing and rinsing after ever meal is **not practical**. Foods we eat including coffee, tea, wine, are constantly yellowing teeth.

## THE SOLUTION

WhitenFresh<sup>™</sup> uses **hydrogen peroxide** to destory both odor & stain molecules.

WhitenFresh™ kills bacteria in mouth that cause bad breath

No other breath freshener can whiten teeth and help with on-the-go oral hygeine.

# THE BENEFITS

Great For After...

When you can't brush, WhitenFresh!™

- Kills 99,999% of Unwanted Oral Bacteria
- Extremely portable and sleek no mess
- Prevents coffee/tea/wine/smoking stains
  - Combats bad breath & halitosis
- Gently Whitens Teeth with very low sensitivity

KILLS 99.999% of unwanted oral bacteria\*

50% **OF ADULTS HAVE BAD** BREATH<sup>1</sup>

Studies have reported that approximately 50 percent of the adult population suffers from chronic bad breath 1.

\*In laboratory testing. Study results

## **SIMPLE STEPS**

SPRAY ONE **PUMP** 

# **WHITENING**

Gradual whitening of your teeth during your aligner treatment. Rest assured that WhiteFoam™ works both under and over attachments so you won't be left with tooth discoloration after your orthodontist removes your attachments.

### LOW SENSITIVITY FORMULA

WhitenFresh<sup>™</sup> uses a **low dose** of hydrogen peroxide meaning you can use daily with virtually no sensitivity.
