

LET'S CELEBRATE EXCEPTIONAL CHILDREN AT YOUR SCHOOL

Exceptional Children's Week

Our engaging and age-appropriate **Award-Winning*** presentation fosters curiosity, questions, and acceptance while celebrating the unique perspectives and exceptionalities of all individuals, including those who are differently abled. Through interactive videos, activities, and inspiring guest speakers, students from Kindergarten to fifth grade will explore various diagnoses such as vision impairment, orthopedic impairment, hearing loss, learning disabilities, Autism Spectrum Disorder, and Down syndrome.

Each grade level focuses on a specific exceptionality, ensuring continuous learning without repetition. By the end of fifth grade, students will have a broad understanding and appreciation of diversabilities. Activities and real-life experiences help students empathize and understand different abilities. We end with a fun quiz where students guess the famous people (from past and present) who have achieved amazing success while having disabilities.

**Program was awarded the 2024 "Best Idea" distinction by PTA District 9 for "Exceptional Children's Week"; Kim Knight granted the 2024 MBES PTA Bell Award for Excellence.*

Pricing starts at \$500, see price sheet or contact us for more package options!
