

Kit shall include four wheel assemblies suitable for adding two transport wheels to each Bison 4" square, 4" or 3" round Shootout or Tourney portable soccer goals. Wheel tread shall be 10" diameter by 2" wide molded rubber on steel wheels with bearings. Wheels shall be mounted to a pivoting steel arm that can be locked either in the "transport" position or the "play" position by means of a screw and wing nut. Each wheel assembly shall mount to any 1 5/8" diameter backstay assembly just behind the goal uprights by means of two 1 5/8" U-Bolt assemblies. All components shall be white powder coated or zinc plated. Each wheel assembly shall weigh approximately 17#.
