

Posts shall be constructed of 3 1/2" OD 6063-T6 aluminum extrusion with a net adjusting track running the entire length of the pole to facilitate net adjustment from tennis height (42") to men's competition volleyball height (7' 11 5/8"). Height adjustment shall be accomplished by a single locking knob on each movable net attachment bar. Top net rope shall be tightened using a worm gear style winch with a 2" wide nylon strap. All steel parts shall have a powder coated finish. Posts shall carry a 5-year limited warranty. The net shall be one meter high, be constructed of black polypropylene 3 1/2mm knotless woven webbing, have a Kevlar top rope and polypropylene bottom rope. Bottom rope and net side tapes shall be tensioned by means of ratcheting style tensioners. Installation to be completed in accordance to manufacturer's instructions. Do not scale drawings. Entire system shall weigh 170#.
