

Platform shall be constructed of 1" diameter steel tubing, 11 ga. wall and be fully welded except as required to allow folding for transport and storage. All components shall have a silver/gray powder coated finish. Platform shall be designed to fold for transport and storage without tools by means of two pull pins. When in use platform shall rest on floor friendly non-marking, anti-skid floor pads. Non marking wheels shall allow easy transport and storage when platform is folded and not in use. Platform shall be no less than 19" in width and 25" in depth and have handrails extending no less than 34" above the platform. All hard surfaces to a height of 72" shall be padded with 1" thick foam covered with standard gray padding system, but substitute Black, Maroon, Navy, Royal and Scarlet at no extra cost. VB76 meets all NCAA, National High School Federation, USVBA and FIVB rules. Easy pull pin folding design. Maximum allowable weight is 250 pounds. One-year limited warranty. Approx. shipping weight: 120#. Installation to be in accordance with manufacturer's instructions. Do not scale drawings.
