

VERIFIED MARKET LEADERSHIP AWARD

M-KOPA SOLAR Kenya Ltd (M-KOPA), established in 2011, has been awarded the 2018 Verified Leader Award in the distributed renewable energy market. The company, headquartered in Nairobi, Kenya, has been a pioneer in the PAYGO segment in Africa. Between 2011 and 2017, M-KOPA provided electricity to more than 500,000 homes across Kenya, Uganda, and Tanzania. M-KOPA's solar powered television has been positively influencing Kenya's rural population. The company sold its 100,000th solar powered television on January 23rd 2018.

Through frequent research and development, M-KOPA has been able to offer efficient and easy-to-manage solar photovoltaic home systems to its customers. In 2017, MIT Technology featured M-KOPA in its list of the 50 smartest companies. The London Stock Exchange Group listed M-KOPA among the top 50 companies in its 'Companies to Inspire Africa 2017' report. M-KOPA was also listed among the '2017 Global Cleantech 100' list. Since its inception, M-KOPA has been the recipient of various awards, including Zayed Future Prize (2015), Bloomberg New Energy Finance Award (2014), and Excellence in Sustainable Finance (2013).

Through this award, Verify Markets recognizes the capabilities and position of M-KOPA as the market leader in the distributed renewable energy market in Africa and Asia. The award also recognizes excellent operations and customer service that are being provided by M-KOPA to its off-grid customers.
