The U.S. Postnatal Supplements Market is in its nascent stage with a gradual rise in awareness around postnatal nutrition and supplements. The market is projected to experience a steady single-digit growth rate during the forecast period (2020-2027). The market is expected to be driven by growing consumer awareness, increasing women's labor force participation, the expansion of e-commerce and online sales channels, and evolution in transparency and clean label trends.

This study aims to provide a detailed analysis on the U.S. Postnatal Supplements Market along with competitive intelligence for the year 2020.

The market numbers included in this report represent revenues generated from the sales of postnatal supplements and vitamins. The base year for the study is 2020 and the forecast period is from 2020 until 2027.

This study captures the following information on the U.S. Postnatal Supplements Market:

- Market Size, Growth Rate, Revenue Forecasts (2020-2027)
- Growth Drivers & Restraints
- Market Data
- Quotes by Key Industry Participants
- Market Share Analysis
- Market Trends

Interviews with key market participants: The research methodology adopted while creating this research involved conducting interviews with various key market participants, enabling Verify Markets to identify various trends in the U.S. Postnatal Supplements Market. Furthermore, discussions with industry participants enabled us to provide a comprehensive country-level view of the overall market. Next, the information was validated through our internal databases and market experts. The collected information was structured and collated into this report.

Macro-economic factors and industry parameters: Various country level parameters including the GDP, population, disposable incomes, product prices, and other trends were taken into consideration in the forecasting model. An in-depth analysis of these factors enabled Verify Markets to size and forecast the U.S. Postnatal Supplements Market.

Postnatal supplements are defined as ingestible dietary supplements providing nutrients for postpartum mothers. Postnatal supplements claim to help with mood swings, nutrient depletion, breastfeeding, and increased energy demands. These supplements are a combination of minerals and vitamins, usually taken in the form of capsules, tablets, powders, liquids, and gummies. The scope of this study are postnatal supplements, specifically consumed after childbirth.

About Verify Markets

Verify Markets is a Research Firm specializing in Industrial, Environmental, Energy, Consumer Products and Water markets. Our Research & Consulting practice provides global industry analysis, custom engagements, end-user analysis, strategy consulting, strategic market intelligence, and forecasts that are designed to facilitate strategic decision-making. Our team of consultants, industry experts and analysts continually monitor and evaluate information to create insights for your business needs. We are comprised of a group of analysts that have been tracking their respective markets for a number of years.

Our goal is to help you reach yours.

METHODOLOGY

The methodology when formulating market trend projection is outlined below. Historical trends were determined through secondary research and Verify Markets in-house database.

- Secondary research was conducted. A list of key industry participants was put together.
- Telephonic interviews were conducted. Most of the leading participants across China were contacted.
- Bottom up methodology was used to calculate the market size.
- Market drivers and restraints were built into the forecasting model to estimate the revenue growth and market size figures.

METHODOLOGY

Profiles of Interviewees: Vice President, Marketing Manager, Business Development Manager, Brand Manager, CEO (for smaller companies).

Most of the primary interview data was captured through telephonic interviews. Pictures, company contacts, preliminary data was captured through secondary research. Images are derived from company websites and other web sources.

Despite Verify Markets' best efforts, certain challenges were encountered, and certain assumptions had to be made. The extremely competitive nature of the USA - Postnatal Supplements Market often results in an increased reluctance on the part of several competitors to discuss their market position, future plans, or market trends. Verify Markets used its skills and experience to extract the relevant data in order to complete the analysis.
