DEFINITION

For the purposes of this research, advanced treatment systems are defined as water treatment systems sold to both municipal and industrial facilities in the U.S. Systems used to treat wastewater are excluded.

Advanced Water Treatment Systems

For purposes of this study, advanced water treatment systems include:

- Ultraviolet (UV) Systems
- Ozone Systems
- Reverse Osmosis (RO) Systems
- Microfiltration (MF) and Ultrafiltration (UF) Systems
- Ion Exchange, Electrodialysis (ED), Electrodialysis Reversal (EDR) and Electrodeionization (EDI) Systems

The base year for this study is 2012.

Revenues and revenue growth rates are provided from 2011 through 2019.

WHO ARE WE

Verify Markets is a Research Firm specializing in Industrial, Environmental, Energy and Water markets. Our Research & Consulting practice provides global industry analysis, custom engagements, end-user analysis, strategy consulting, strategic market intelligence, and forecasts that are designed to facilitate strategic decision-making. Our team of consultants, industry experts and analysts continually monitor and evaluate information to create insights for your business needs. We are comprised of a group of analysts that have been tracking their respective markets for a number of years.

METHODOLOGY USED BY VERIFY MARKETS

The methodology used for formulating market trend projections is outlined below.

1. Historical trends were determined through secondary research and Verify Markets in-house database.
2. Secondary research was conducted. A list of key industry participants was put together.
3. Telephonic interviews were conducted. Most of the leading participants across the country were contacted.
4. Bottom up methodology was used to calculate the market size.
5. Market drivers and restraints were built into the forecasting model to estimate the revenue growth and market size figures.

Profiles of Interviewees: Vice Presidents, Marketing Managers, Business Development Managers, Brand Managers, CEO's (for smaller companies). Most of the primary interview data was captured through telephonic interviews. Company contacts and preliminary data was captured through secondary research.
