The Tiber is a more classically designed water fountain, with a simple curved top and single spout, and our trademark "Belgian Circle" design on the front reservoir. The Tiber Fountain would bring tranquility and peace to any garden space or courtyard. This water feature is completely self contained, so you will not require a water supply to the feature. The Tiber works by recycling water from the catch reservoir and pumping it into the back reservoir. This fountain includes a built in Submersible pump, and is now available in three styles, a Square and a Curved Trough with different spouts and a Tall.

> Tiber Square (Code: TIB120WF) // 120cm wide, 60cm deep, 115cm high // Weight 77kg. Tiber Curved (Code: TIB130CWF) // 130cm wide, 50cm deep, 135cm high // Weight 86kg. Tiber Tall (Code: TIB165WF) // 65cm wide, 55cm deep, 165cm high // Weight 66kg.
