A PLACE IN THE GARDEN SPEC SHEETS - TRENTO WATER FEATURES

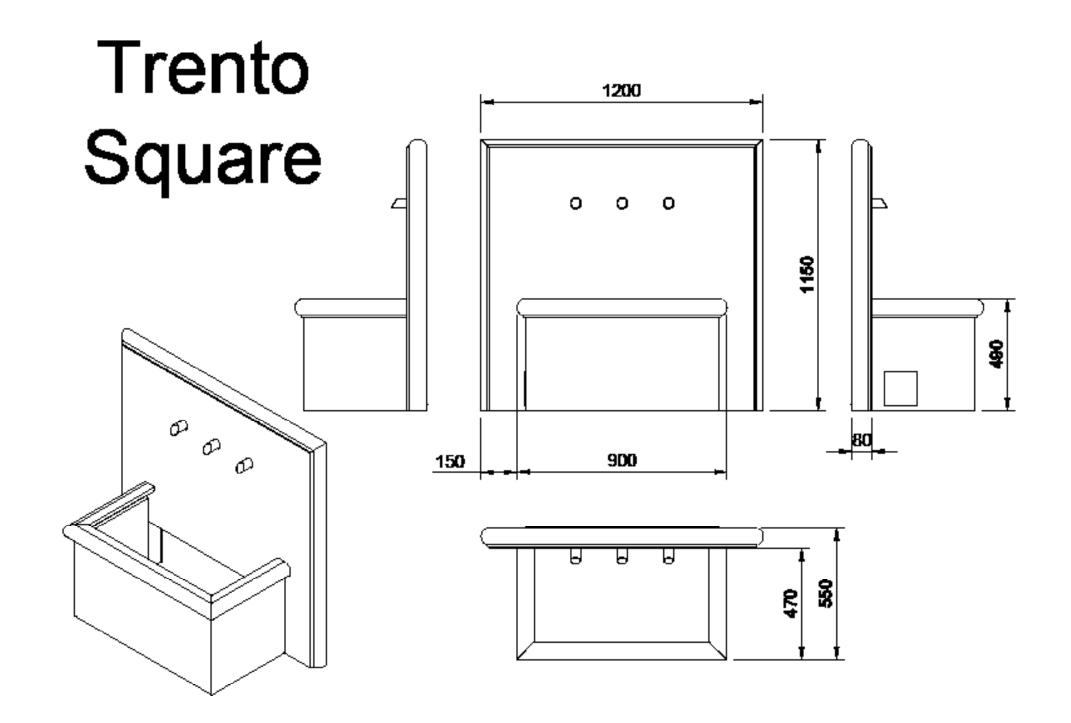

Total Weight with Water - 185kg

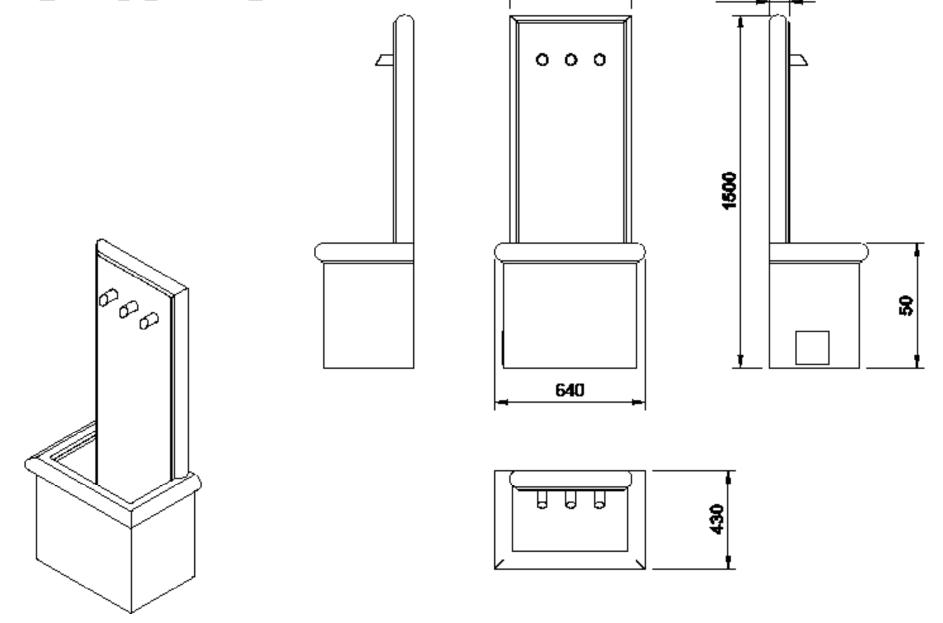

The Trento is a more classically designed water fountain, with a detailed top and three single spouts. The Trento will develop a beautiful aged patina over time, giving it an antique classic look. The Trento Fountain would bring tranquility and peace to any garden space or courtyard. This water feature is completely self contained, so you will not require a water supply to the feature. The Trento works by recycling water from the catch reservoir and pumping it into the back reservoir. This fountain is available in two sizes and includes a built in Submersible pump.

Total Weight with Water - 300kg
