

A PLACE IN THE GARDEN

SPEC SHEETS - VERSAILLES PLANTERS

Heavily influenced by the gardens of Versailles, this planter is adorned with ball finials and rings, which gives it a very traditional look. This stunning planter is indeed a statement and is certainly deep enough to plant a small tree. They look fabulous when planted with a half standard Bay Tree and underplanted with Lavender. The planters will arrive in a weathered zinc finish, but over time they will lighten due to the natural oxidation process

Size: 62cm wide, 62 deep, 94 high
