

ADDING AMAZON ALEXA SKILL

Please follow these instructions to get the Alexa Skill added.

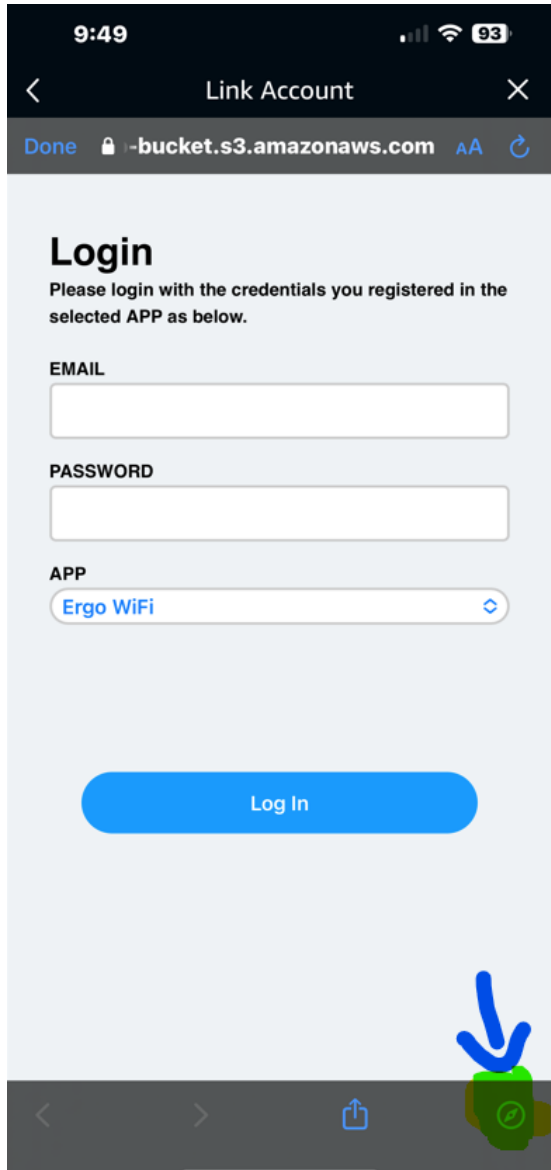

Step 1. Open the Alexa app, go to the skill and type in “Ergomotion Smart Bed” then click on the settings tab.

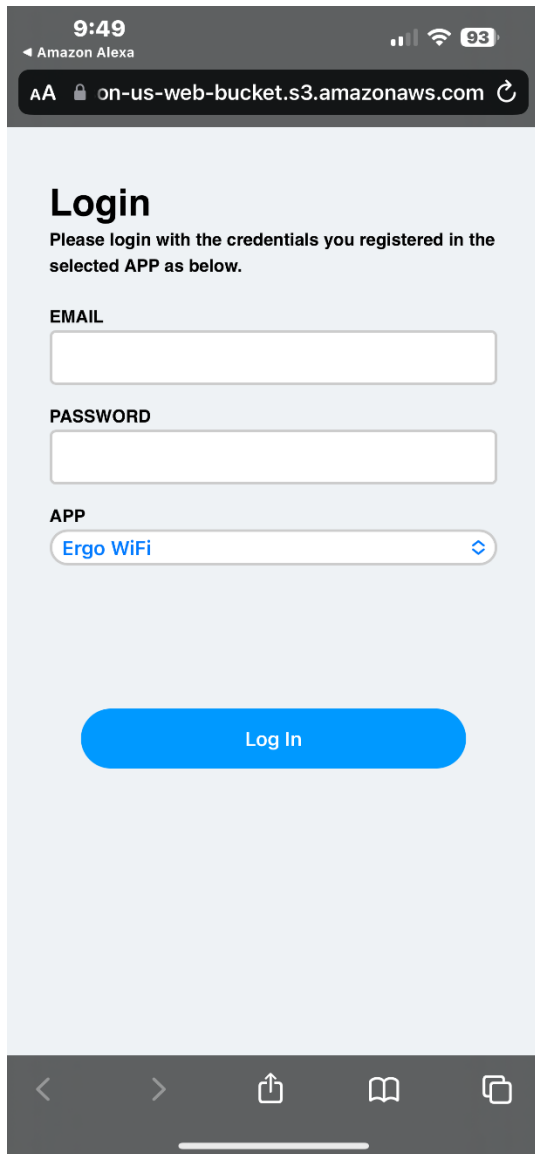

Step 2. Click on link account.

Step 3. Don't log in this screen, please click the web browser link on the bottom right corner.

Step 4. It will take you to the web browser log in page, you will now enter the log in information that you use for the Ergomotion Power Command. The Skill should now link properly.

The image shows a mobile browser interface with a login form. At the top, the status bar shows the time 9:49, signal strength, Wi-Fi, and 93% battery. The browser's address bar displays the URL 'on-us-web-bucket.s3.amazonaws.com'. The page content includes a 'Login' heading, a prompt to use registered credentials, and three input fields: 'EMAIL', 'PASSWORD', and 'APP'. The 'APP' dropdown menu is currently set to 'Ergo WiFi'. A blue 'Log In' button is positioned below the form. The bottom of the screen features a navigation bar with icons for back, forward, share, bookmarks, and tabs.
