

JEWELRY by ARTISTS

IN THE STUDIO 1940-2000

The image features a massive, multi-strand gold chain necklace. The chain is composed of numerous small, rounded links that create a dense, woven texture. It is coiled in a loose, S-shaped curve across the frame, with one end resting on a dark, solid-colored surface. The lighting highlights the metallic sheen and the fine details of the chain's construction.

SELECTIONS FROM THE DAPHNE FARAGO
