Geomagic Scan Software Education Suites

**Enhance your classroom
with state-of-the-art 3D scanning software
from 3D Systems**

Explore Scan-Based Design and Manufacturing Processes with Geomagic Software

3D Systems is transforming the product development process by reducing the time required to build complex 3D models of real world objects and verify the integrity of manufactured parts.

- Start projects from real-world objects instead of a blank screen
- Capture and process data from 3D scanners
- Reverse engineer physical parts into digital surface or solid parametric models
- Recreate complex geometry that cannot be measured any other way
- Measure and validate real-world parts

Choose Geomagic Software for Your Classroom

Our reverse engineering and inspection software solutions make the process of digitally representing and engineering from the physical world fast, easy and accurate.

- 20+ years of reverse engineering software experience
- Complete software for professional-level inspection
- Compatible with most 3D scanners
- 3 years maintenance included
- Tutorials included
- Training for classroom instructor at no cost where offered

Geomagic Classroom Elite Suite

The Ultimate Scan-to-CAD & Inspection Solution

This suite includes:
- Geomagic® Design X™
- Geomagic® Control X™
- 20 network licenses
- 3 years maintenance
- Tutorials

Geomagic Classroom Suite

The Complete Scan-to-SOLIDWORKS & Inspection Solution

This suite includes:
- Geomagic® for SOLIDWORKS®
- Geomagic® Control X™
- 20 network licenses
- 3 years maintenance
- Tutorials

Geomagic Classroom Suite for SOLIDWORKS

The complete Scan-to-SOLIDWORKS Solution

This suite includes:
- Geomagic® for SOLIDWORKS®
- 20 network licenses
- 3 years maintenance
- Tutorials
  *** Individual Seats of all Geomagic software is available. Contact us for more information.

Suites are only available in AMS and EMEA regions
