

A photograph of two women from behind, standing in a field of tall grass under a clear blue sky. The woman on the left is wearing a white two-piece outfit, and the woman on the right is wearing a yellow dress. Both have their arms raised, and their hands are touching at the top, forming a heart shape. The overall mood is joyful and carefree.

LIÁN LOU

OUR INSPIRATION.

Finding joy in the small things, LIÁN LOU's Resort 2023 collection CHALEUR explores the meaning of the daisy flower.

Although a common garden flower, the daisy embodies the feeling of pure happiness and inner calm that can come from life's simple pleasures; a walk on your favourite beach, reuniting with loved ones, picking wildflowers, breathing in fresh air, and the sun on your skin is infused throughout this capsule of summer essentials.

We hope you enjoy your exclusive preview of our Resort collection and that you find joy in LIÁN LOU's CHALEUR.

With love,
Sheridyn and Brooke

OUR COLLECTION.

Inspired by the simplicity and softness of the daisy flower, a blend of delicate draping and gentle gathering can be seen throughout the collection. Effortless, oversized silhouettes are adorned with delicate details through feminine trims and intricate fabrications, creating a sense of an endless summer.

Made in organic cottons and breathable linen for soft skin feel and relaxed drape on the body, signature LIÁN LOU designs are recreated to embrace long beach days that turn into nights and holiday escapes to the poolside. Natural corozo buttons and recycled bralette clasps are used to secure your simple summer styles with comfort and ease.

Delicate sunshine yellows and fresh whites create our seasonal hues embodying the tones of the daisy flower, with our subtle loop trim inspired by the elegance and curvature of its petals. Complemented by an intricate cotton broderie anglaise, CHALEUR has the perfect palette for your golden summer days.
