A woman is shown from the back, wearing a light green, textured blazer and a matching skirt. Her right hand is raised to her head, and her long, wavy brown hair is visible. The background is a plain, light-colored wall with a decorative molding at the top. The overall aesthetic is clean and minimalist.

# DÉBUT

LIÁN LÒU

## OUR INSPIRATION.

---

Inspired by co-founders Sheridyn & Brooke's first mornings in France, LIÁN LOU's Spring Summer 2022 collection DÉBUT encapsulates the contentment of beginning a new day well.

Exploring a city before it wakes, having a clear and open mind, moving your body in nature, the smell of coffee and croissants, experiencing new surroundings and being grateful for the present moment can be felt in each and every detail.

We hope you enjoy your exclusive preview of our first collection and that you may begin your day well with LIÁN LOU's DÉBUT.

With love,  
Sheridyn and Brooke

## OUR COLLECTION.

---

Drawing from Parisian spaces that are best discovered with a coffee in hand, a balance of clean lines and flowing silhouettes appear throughout the collection. Oversized shapes are met with a feminine touch, through hints of skin and soft tailoring, embodying the art of French simplicity.

Crisp organic cotton poplin keeps our styles light and fresh on warm summer strolls, while textural linen creates somptueux structure within signature LIAN LOU designs. Find bespoke buttons in natural corozo materials take on the layers of a freshly baked croissant, with our seasonal quilt stitch manifesting from the strength and presence of Parisian architecture.

Soft sage greens and cornflower blues form our seasonal hues that pay homage to prominent memories of the Jardin du Luxembourg and array of blue doors throughout the 6th arrondissement. Supported by our subtle gingham print, drawing from the weaving of wicker chairs that can be found in every corner cafe. Finely balanced with complimentary warm undertones, DÉBUT presents a palette that will find placement in any Spring Summer wardrobe.
