Punctuation/Text Features	Tips and Activities to Try		
 Introduced in This Book contractions (e.g., can't, isn't, etc.) 	 Key Concepts to Understand a contraction is a word or group of words resulting from shortening an original form an apostrophe often replaces a vowel, but not always (e.g., we will → we'll) teaching children the definition of contraction will deepen their understanding → "to shorten/make smaller" you may want to begin with simple contractions where only a single vowel is replaced by the apostrophe (e.g., <i>let's, it's that's, didn't, there's</i>) Scratch Garden's video clearly illustrates this concept: https://www.youtube.com/watch?v=gubPH3WEurg quickly introduce more complex contractions (e.g., <i>won't, we'll, can't</i>) where more than one grapheme is replaced by a apostrophe so students have flexibility in their understanding Activities to Try Use grapheme cards, magnetic letters/tiles, and online blending boards to provide students with opportunities to phys cally replace graphemes with an apostrophe.

These sheets are being offered as a free download because the more we understand our language, the more powerful decodable books can be for our students. Each tip sheet provides Key Concepts to Understand and Tips and Activities for Grapheme/Phoneme Correspondence, Orthographic Conventions/Patterns and Generalizations, Morphology, and Phonetically Irregular Words. It is essential to pre-teach the concepts using this tip sheet prior to reading the book. There is nothing inherently decodable about a book. Decodability is a relationship between the student and the book. If the concepts in a book have been taught, the book is decodable.

The information for these sheets has been compiled from a wide variety of sources. Many thanks to those in the field who have researched, practised, and shared their knowledge with educators. Please note - these sheets are based on our current understanding, both from our studies and from our personal experience. As we continue to learn, our understanding will evolve. If we reach a point where we feel these sheets need to be adjusted, we will do so and provide updated versions for free download.
