About the Series

Are you looking to build a library of decodable readers in your school or home? SyllaSense Decodable Readers provide opportunities for students to develop and practice letter-sound correspondence, as well as an understanding of orthographic conventions, morphology, and high frequency words.

These books are ideal for educators searching for a more systematic approach to teaching the building blocks of reading, while still keeping meaningful text and natural language structures at the forefront. Created in Canada, these engaging, meaning-rich stories are a great addition to any school or home library!

Our Scope and Sequence is broken into 5 categories:

- Grapheme/Phoneme Correspondence
- Orthographic Conventions (Patterns and Generalizations)
- Morphology
- Punctuation/Text Features
- High Frequency Words

Free, downloadable teacher support materials are available for each book. Visit our website to see these resources, and our full scope and sequence.
