250 gallon mini-bulk

### Use With:

Approved for use with new dicamba formulations by BASF, Bayer, and Syngenta

**EclipseUS™ Complete DRA V-Maxx** is a multipurpose drift and volatility reduction aid coupled with water conditioner and surfactant. **EclipseUS Complete DRA V-Maxx** is a qualified and approved DRA for new dicamba based herbicides and associated tank mixtures.

### What makes EclipseUS Complete DRA V-Maxx work better:

- Enhanced all-in-one premix that includes a new volatility reduction aid based on Volimate™
- Based on the same, proven drift reduction polymer found in **EclipseUS Complete DRA**
- Can also be used with any dicamba containing formulation including popular premixes labeled for corn
