

EclipseUS™ Tank Cleaner

Use Rates:

2 quarts per 100
gallons of rinsate

Packaging:

4 x 1 gallon case

A clean sprayer helps protect against crop injury and yield loss. **EclipseUS™ Tank Cleaner** is a strong spray system cleaner designed to remove oily residues that can build up throughout a sprayer system. When used with proper tank cleaning practices, **EclipseUS Tank Cleaner** is a valuable tool to avoid cross-contamination from a wide range of crop protection products, including dicamba.

Why EclipseUS Tank Cleaner works better:

- Removes dried-on residues from incompatible tank mixes
- Solubilizes oily residue build-up for more complete cleaning
- Accelerated breakdown of pesticides
- Anti-corrosion inhibitors protect equipment pumps, seals and plumbing
