COCK N' LOCK

Increased airflow efficiency conserves compressed air and increases pneumatic power to each line running off the air compressor. The power flow coupler's air chamber is completely open, unblocked by springs, coils or mechanical assembly.

This allows unrestricted air flow through the coupler passageway and through the full flow ported plug.

- **1/4" & 3/8"**
- **COCK 'N LOCK / POWER FLOW**
- **PNEUMATIC COUPLER & PLUG ASSEMBLIES**

SOLVENT RECYCLING LINER BAGS

Product Performance Benefits

- Tough, durable bag construction
- Easy to use: Follow solvent recycler manufacturer's directions for removal and disposal of liner bag. Then install new liner bag
- LINER BAGS are necessary: Often the solvent debris remains wet and gummy after distillation. It does not dry hard.
- LINER BAGS protect the distillation tank, eliminate messy clean-up and enable fast, safe removal and disposal of solvent debris
- Heat resistant up to 400°F (204°C)
- Works on most solvent recyclers!

PART #	DESCRIPTION
230	5 GALLON LINER BAG - 20" X 20"
231	5 GALLON LINER BAG - 24" X 19"

MISCELLANEOUS

SODA BLASTER

The Soda Blasting Gun is made of strong composite resin. Just add Soda Blasting Media in the container, connect to your compressed air source and go.

By dialing the nozzle you can adjust the stream of soda to be very narrow or a wider pattern and you can control this stream to the accuracy of an airbrush. The higher the compressed air pressure, the more media will be discharged.

QUICKLY, AND SAFELY, REMOVE PAINT & CORROSION

- Neither warms nor stretches the metal
- Does not damage glass, rubber, or plastic
- No need to grind metal
- Excellent for removing rust

PART #	DESCRIPTION
145150	SODA BLASTER GUN
145151	SODA BLASTER MEDIA - 10LB. PLASTIC JUG
