

"Fleur" Needlebook

Here's a lovely little needlebook you can create in an afternoon...a place to store your favourite needles or perhaps a beautiful gift for a friend.

You'll need a small piece of:

- Plain coloured fabric...linen or linen blend is a nice weight
- Lightweight iron on pellow
- Inner lining fabric...something with a little pattern looks nice
- Felt...acrylic or wool

Cut each of the fabrics, interfacing and pellow to 18cm x 12cm.

Press the pellow to the wrong side of linen piece...fold in half, short sides together and press centre line.

Stitch flower design on the right hand side of linen piece.

Place linen and lining fabric pieces right sides together...stitch around all edges, leaving a small opening gap at the bottom...pull through to right side, press and hand stitch opening closed.

Cut felt piece about 1 cm smaller all around than the finished needlebook size...open out needlebook...centre felt piece in the middle and stitch in place down the centre fold, through all layers.

That's it...all done...enjoy.
