

Words That Matter

Words of appreciation from our clients

“A customer talking about their experience with you is worth ten times that which you write or say about yourself.”

- David J. Greer

We strive to create products that make our clients happy.
And it feels great when these efforts are
acknowledged and appreciated.
This little book captures their experience with
our products in their own words.
So that it inspires us to create newer, better,
and more innovative products.

It's been 2 days that Acetech Amulya discussion is done where we had some esteemed panelists with us. It was all together a different experience, playing around with different topics involving details, finishes and how Amulya materials and the new age materials can really affect our designing. The topic itself being out of the box and the teaser called what's next for designers? With these new age companies coming & financing, do designers have a role in it or not and a lot of fun, interesting topics were touched upon.

The webinar was excellent for under two hours filled with good information. The Questions and Answer also covered a lot of good ground and it was nice to know that every designer is so open towards the new market conditions.

The concerns, suggestions and the solutions shared by each panelist was quite insightful. We are challenged with the transition to the new reality and this talk was helpful in many ways to designers as well as the audience.

Design is going to be important for the transformation and so are the design trends and new materials which are emerging in the market. Looking at the growing environmental concerns, sustainable products like the product introduced by Amulaya Mica could be a good alternate. More and more products like these can be used while considering the design of the space, so that as designers we can work collectively towards a sustainable output.

Letter of Appreciation

Amulya Mica

Amulya Mica has an array of more than 600+ Shades comprising of solids, homogenous cored solid colours, natural wood grains, abstracts, rustic, etc. of textured finishes. The company, though younger to this market, has rapidly established itself with its contenders. Their synchronised laminate is a remarkably premium designer product which presents itself as a replacement of natural wood veneer, with the touch and feel of actual wood. At no extra cost with minimal to basic maintenance this product is definitely a go to for someone who is quality conscious.

Our best wishes to Amulya Mica, to continue experimenting and developing such premium products.

The webinar stood out to be lively & informative and great moderating done by Ar. Mahesh Funjab . The interesting ideas floated were answered appropriately by the knowledgeable Panelist. It was a healthy webinar spreading valuable with a lot of beneficial information about the various products in the market and techniques of using them at various places and situations. Constructive discussions about material sourcing & selections in Covid times were advantageous to help the audience know about the better & quicker mediums of use. The Amulya range of products seems quite intriguing & promising and we would surely recommend it to appropriate clients.

Subject: Amulya Mica Feedback

Recently I was happy to be part of an amazing webinar with some of the most respected names from the industry. Other than the knowledge take away from the webinar, I also got introduced to the products that Amulya Mica as a brand has to offer. What was evident was their social responsibility towards creating products that are easy on the environment and at the same time do not leave us shortchanged for design choices.

I really appreciated their vast range of color and design choices for us designers and came away happy to see the amazing products they are being manufacturing here in India.

Looking forward to hearing more successful product launches from them and wishing the entire team at Amulya Mica the very best for their future endeavors.

Yours Sincerely,

To Whom So It May Concern

I am pleased to inform that I have recently gone through range of products being offered by Amulya Mica and I really liked their new catalogue Imperial Laminates having wide range of 1.25 mm anti-bacterial laminates with 10 years' warrantee. As learnt from company's literature that their laminates and PVC boards are anti-bacterial and they plant a tree for every 36 sheets of plywood they make; I will use Amulya Mica products in my upcoming projects.

I wish all the success to Amulya Mica.

To Amulyamica

It has been an honor for us to be a business associate of Amulya Mica Group for almost two decades .

I have found the management to be always aspiring for innovative products.

The team Amulya is always committed to provide quality products and best services.

The business policy towards associates provides a feeling of security and reliability , prompting us to reciprocate with same level of our efforts to create long lasting bonding.

Not only this , Amulyamica has escalated continuously in it's efforts to place the Brand amongst leading brands in the country .

Various lucrative schemes and gifting policy of the company is attracting the dealers and help in strengthening the bonding with co.and brand .

A vivid range of decorative laminate, HPL cladding , plywood products , pvc bending laminate , WPC boards , doors and door frames etc facilitates the business associates to create their top and bottom line .

The company has always shown great interest in holding various seminars and participating in national and international exhibitions .

The company duly recognises it's corporate social responsibility , such as planting trees, helping in education and medication of underprivileged in society ,

contributing to PM covid fund and helping the labours in surviving during this acute crisis , are such gestures , which deserves to be acknowledged with respect.

I am, and I will feel honoured to be a part of the evolution and progress of Amulyamica.

Since its launch in North-East back in August 2014, Amulya Mica have been able to create and maintain its brand positioning seamlessly, primarily because of the premium product quality and the range of decorative laminates that the brand has to offer. It has been the talk of the town, especially among the highly influential circles of architects and interiors.

Amulya Mica offers best in class products manufactured from the highest quality of raw materials with expertise of the best in class production managers. Innovation has been one of the key strengths at Amulya Mica. The R&D team at the production house have always exhibited great product innovation, which is reflected in the shade cards launched year after year with new designs after a comprehensive market feedback.

The brand new initiative of Amulya Shoppe is commendable, and will surely strengthen Amulya Mica's market positioning in all the cities that it is being launched in. Really looking forward to a long-term association. :)

Best Regards,

TESTIMONIAL

Having a manufacturer that you can trust and rely is incredibly important in Laminate Distribution Business & I feel blessed that I have been able to find that with AMUYLA MICA.

Their customer service is second to none and the whole team is incredibly accommodating to any request or customization by Dealers & Distributors. Always quick to respond to an ever changing market place, Amulya MICA's product lines are constantly evolving and they always have a variety of product options ranging from difficult to find high end laminates to first time in India products that fits all our Distribution needs with a commendable prompt service.

It's a delight to partner AMUYLA MICA in distributing their range of laminates and we look forward to continuing our relationship with AMUYLA MICA for the years to come.
