Suitable extinguishing media: Foam, water, water spray

Special protective equipment for firefighters:

Wear a self-contained breathing apparatus with a full face-piece operated in the positive pressure demand mode with appropriate turn-out gear and chemical resistant personal protective equipment.

Hazardous combustion products:

Some oxides of carbon on incineration

Additional Information: Fire & Explosion Hazards are not known for this water based product.

6. ACCIDENTAL RELEASE MEASURES

Modified 12/24/2015

Personal precautions: Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition.

Environmental precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. **Methods and materials for containment and cleaning up:** **SMALL SPILLS:** Absorb with suitable absorbent material, place in chemical waste container, close tightly and dispose of properly. **LARGE SPILLS:** Persons not wearing protective equipment should be excluded from area of spill until cleanup has been completed. Stop spill at source, dike area of spill to prevent spreading, pump liquid into salvage tank. Prevent run-off to sewers, streams or other bodies of water. If run-off occurs, notify proper authorities as required. Absorb remaining liquid with suitable absorbent material and place in chemical waste container, close tightly and dispose of properly.

7. HANDLING AND STORAGE

Precautions for safe handling: Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Use in a well-ventilated area and wear protective equipment as required. Avoid misting, heating or splashing. Wash thoroughly after handling.

Storage: Store in closed containers in a cool, dry, well-ventilated area. Protect containers from physical damage.

12. ECOLOGICAL TOXICITY

General Comments	No known components of this formula that are potentially environmentally hazardous are known bio accumulators or otherwise no data available enough to determine appropriate designation.
-------------------------	---

Modified 12/24/2015

Bioaccumulation	this product is not a bioaccumulator
Biodegradation	biodegrades slowly in the presence of oxygen (rate unknown); much faster in acclimated (polluted) water than pristine water (<i>should be under 30 days in sewage treatment facility</i>)
Abiotic Degradation	reacts with atmospheric hydroxyl radicals; estimated ½-life in air less than one day
Mobility in soil, water	water insoluble; low soil mobility; adsorbs to soil helping it remain stationary
Aquatic Toxicity	
LC ₅₀ (Fish, 96hr)	45mg/litre <i>emulsified</i> , 18-20mg/litre – <i>water soluble</i> (Pimephelas promelas) NOTE: Mineral spirits is essentially water insoluble. The above tests recognize this. The 1 st test emulsified the product, the 2 nd equilibrated it with water, then tested.
LC ₅₀ (Crustacea, 48hr)	1.4, 1.9, 3-10, 21 & 40-89mg/litre (Daphnia magna) ¹
LC ₅₀ (Algae, 72hr)	1-3, 4.3, 5.0, 8.3 & 10-30mg/litre (Pseudokirchnerella subcapitata) ¹
LC ₅₀ (Bacteria)	678mg/litre (Tetrahymena pyriformis – <i>computer estimate</i>) ¹
