4. **FIRST AID MEASURES**

First aid procedures

**After inhalation:**
Get victim to fresh air. Give artificial respiration or oxygen if breathing has stopped. Get prompt medical attention. Do not give fluids if victim is unconscious. If victim is conscious, rinse mouth with water and contact emergency number listed in section 1.4.

**After contact with skin:**
Immediately wash skin with soap and water. May cause irritation. Seek medical attention if irritation or allergic reaction is present.

**After contact with eyes:**
Immediately flush eyes with running water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Seek prompt medical attention if redness or irritation occurs. Avoid agitation. Abrasives present in substance may scratch eyes. Remove contact lenses if able.

**After ingestion:**
Rinse mouth with water, contact poison control center or emergency number listed in section 1.4.

**Advice to doctor / Treatment:**
None known.

5. **FIRE FIGHTING MEASURES**

- **Flashpoint:** Unknown, aqueous mixture.
- **Lower explosion limit:** Not applicable
- **Upper explosion limit:** Not applicable
- **Self ignition:** Not applicable
- **Ignition temperature:** not tested.
- **Hazardous combustion products:** carbon oxides
- **Extinguishing media:** water spray jet alcohol-resistant foam carbon dioxide dry powder
- **Special fire fighting procedure:**
Apply alcohol-type or all purpose-type foams by manufacturers’ recommended techniques for large fires or water spray. Use carbon dioxide or dry chemical media for small fires. Use self-contained breathing apparatus and protective equipment. Cool endangered containers with water jet.
