# THE WALLOWA DIFFERENCE

At Wallowa Valley Cleaning Products, we've developed the most advanced cleaning solutions in refillable containers, while maximizing safety for people, animals, and the environment.

Every day we make the world cleaner — one less plastic container at a time.

# HOW DOES A REFILLERY REDUCE PLASTIC WASTE?

STEP 1

Consumers buy our durable, pre-filled containers, or bring their own containers from home to fill with our cleaning products.

STEP 2

They'll return to your store again and again to quickly and easily refill their containers.

Keeping single-use plastics out of landfills benefits your business, the consumer, and our planet, and is better for the environment than recycling, as a great deal of “recycled” plastics are never actually recycled.

STEP 3

# EVERYTHING YOU NEED TO GET STARTED TODAY

Our basic refillery rack is designed to effectively deliver 15 bulk liquids, 5 bulk powders, and appealing packaging with color-balanced labels inside of an incredibly space-efficient footprint. Dimensions of racks are 61" wide, 24" deep, and 72" tall.

Each set can be displayed on your store's existing shelving, or choose our custom rack.

Our bulk liquid and powder Bag-in-a-Box (BIB) containers can be easily changed out and replenished when empty:

## SUPPLIES

- 30 5-gallon BIBs of bulk liquid storage (15 SHOWING AND 15 IN RESERVE)
- 5 50 lb. BIBs of powder storage
- Advanced spigot system easily allows thick liquids to flow quickly
- Over 1 million units already delivered
- Customers can access instructions and detailed product information via QR codes on BIB labels

## ACCESSORIES

- Custom-sized scoops
- Bottles, caps, pouches, and trigger sprayers

# ULTRA-EFFECTIVE ULTRA-GREEN

Made with **cutting-edge** technology and the highest **quality** ingredients, our products are specifically formulated to be the most effective green cleaners in the world.

DIFFERENT  
SKU<sup>s</sup>  
**140**  
ALL  
ULTRA GREEN

- With more complex formulations than virtually all other ultra-green cleaners, our products provide a more **powerful clean**, while being mostly plant based and readily biodegradable.
- **17 proven formulations**, available in sizes from individual consumer packaging to 55-gallon drums.
- Our manufacturing process follows the ISO 9001 globally recognized standard for quality management, ensuring the **highest standards** of product quality.
- Our laundry products are designed to **extend the life** of fabrics and appliances.
- Highly concentrated formulas are **efficient** and effective.
- No sodium laureth sulfate (SLS), sodium laureth ethyl sulfate (SLES), phthalates, chlorine, or phosphates.
- All ingredients disclosed on every label.

We are a self-financed, six-member LLC team with a combined 150+ years of successful industry experience, and we proudly design, blend, package, label and ship our products directly from our facility in Oregon.

Store customers can easily place orders via our Shopify Plus platform, while large multi-store customers can easily order using EDI via SPS Commerce.
