

# CARPET & RUG CLEANER (348)

This earth-friendly and machine-extractor safe concentrated cleaner allows for easy carpet cleaning that leaves your home smelling fresh and your body healthy.

## DIRECTIONS FOR USE

**NOTE:** This intelligently designed Cleaner surrounds and encapsulates soils even when deeply embedded in carpets and rugs. Effective cleaning results from wetting the carpet-rug with the diluted liquid Cleaner and then removing all liquid from the area being cleaned. This liquid and any dried residue will contain the encapsulated soils.

1. Thoroughly vacuum the cleaning area.
2. Pre-treat heavily soiled areas by spraying with full-strength Cleaner.
3. Dilute the Cleaner by adding about 1/3 cup (2-3 fl oz or 4-6 tablespoons) to each gallon of warm water.
4. Apply the diluted Cleaner using a machine extractor, or spray/sprinkle/pour the diluted Cleaner onto the area to be cleaned. The diluted liquid Cleaner will attach itself to the soils.
5. Remove liquid by using a rug cleaner (soil extractor) or by thoroughly blotting/soaking up the liquid with clean towels or cloths. Removing all liquid from the carpet will also remove encapsulated soils.
6. Let carpet dry completely, then thoroughly vacuum any dried residue.

## INGREDIENTS:

Purified Water, Sodium Caprylyl Sulfonate (plant), Methylglycinediacetic Acid, Sodium Salt (synthetic, EPA Safer Chemical listed), Propylene Glycol Methyl Ether (synthetic, EPA Safer Chemical listed), Ethanol (plant), Alcohol Alkoxylate (plant), Citric Acid (plant), Benzisothiazolinone, Methylisothiazolinone, and Phenoxyethanol (synthetic, EPA Safer Chemical listed).
