When we return to the city the pains start again, we remember those old flaws we had before leaving for the holidays, we count the pounds we want to lose, in short, it is traced as a sort of imaginary line. Pre-vacation and post-holiday life and, of course, the post-vacation doesn't have many positive aspects. But let's find the good reasons to return to the city, let's try at least with a September-proof **skincare routine** . *No more drama* but more hydration. Here are three specific skincare lines for three skin needs.

Anti-blemish return skincare routine

It's called **Pure White** and it's signed **Eisenberg** . After the extravagances of the summer it takes a bit of rigor and above all an effective skin care protocol. The much hated spots may be due to incorrect sun exposure, hormonal alterations, stress, therefore Pure White is ideal for stimulating cell renewal, helping the skin to eliminate excess pigments and promoting sun protection. Eisenberg's Pure White anti-blemish skincare routine promises results after just two months of application. After cleansing your face, morning and evening, it's time to apply **Correcteur Lumière**, an intensive and anti-aging creamy serum concentrated with floral extract of Bellis Perennis and Vitamin C. It gives immediate radiance to the complexion by blocking and preventing the hyper-pigmentation process. After the **Crème de Jour SPF 50** serum , a UV anti-aggression facial treatment.

An anti-aging day cream, with SPF included therefore very convenient for daily use. Its effectiveness is enhanced by Vitamin E which also has an anti-oxidant action. The icing on the cake is the **Masque Creme Relaxant**for Face, Neck and Décolleté. To be used a couple of times a week to brighten the complexion and counteract the appearance of spots or habitual. The range also includes the eye contour cream, the night cream and a purifying emulsion for combination and oily skin.
